BERAR

PART I.

GENERAL SUMMARY.

Personnel.

SIR DENZIL IBBETSON, K.C.S.I., I.C.S., held the office of Resident at Hyderabad from the 1st April to the 12th November 1891, on the termination of which date he proceeded on private leave for three months. While on leave he was appointed to be Resident Surveyor of the Punjab and its Dependencies, and Mr. Chisholm Phowlers then had been officiating in this post continued to the post of Resident at Hyderabad with effect from the 5th March 1892, and continued to hold the office for the remainder of the year. The office of First Assistant Resident and Secretary for Berar was, with the exception of the occasions on which he was granted short periods of privilege leave, held by Mr. J. A. Crawford, I.C.S., throughout the year. On three occasions, viz., from the 8th to the 24th September 1891 and from the 25th to the 30th March 1892, the charge of the office of First Assistant Resident and Secretary for Berar was held by Mr. O. V. Bosanquet, I.C.S., in addition to his own duties. Mr. G. B. Irwin, I.C.S., having been appointed First Assistant Resident and Secretary for Berar, vice Mr. Crawford, appointed to be Under-Secretary to the Government of India in the Foreign Department, assumed charge of his duties on the forenoon of the 30th March 1892, and continued in office up to the close of the year. With the exception of three months and few days, on which he was on privilege leave, viz., from the 4th April to the 5th July 1891, Mr. O. V. Bosanquet, I.C.S., held the office of Second Assistant Resident and Assistant Secretary for Berar throughout the year. During Mr. Bosanquet's absence on leave Major and C. H. Pritchard, I.S.C., was appointed to officiate for him. In the Berar Commission the appointment of Commissioner of the Hyderabad Assigned Districts was, with the exception of a month when he was on privilege leave, viz., from the 19th August to the 9th September 1891, held by Mr. Chisholm Phowlers, I.C.S., up to the date of his transfer to Hyderabad. He was succeeded, on the occasion of his absence on privilege leave as well as on his transfer, by Colonel R. J. L. Mackenzie, I.S.C., Judicial Commissioner of the Hyderabad Assigned Districts, who was subsequently confirmed in the appointment of Commissioner and held charge of it up to the close of the year. Mr. R. Oldham, I.C.S., Civil and Sessions Judge, officiated for Colonel Mackenzie as Judicial Commissioner on the latter occasion, and remained in charge of the office up to the close of the year.

Survey.

2. The provisional boundary between Berar and the Central Provinces was finally demarcated and mapped during the year, and the Melghat series of maps thus completed.

The revenue survey work dealt with during the year fell under two heads, *viz.*, (1) settlement of the Ikas and Khalsa villages in the Wun and Basim districts, and (2) revision survey settlement in the Multapur taluk of the Buldana district. Establishments were at work in 34 ikas and 20 Khalsa villages in Wun and 20 and 120 khalsa villages in Basim and Buldana respectively, or a total of 233 villages in all. In Wun and Basim the work of measurement and classification was completed in 103 villages. In Buldana 10 villages were entirely remeasured, and the results proved satisfactorily the accuracy of the original survey. Accordingly, in the remaining villages, the system of partial re-measurement adopted in the Bombay Presidency was adhered to, and only numbers which showed changes were dealt with, by far the larger portion of each village being confirmed. Under head (1) above mentioned the total outturn of the year was 73,244 acres measured and 66,047 acres classed. The decrease of the outturn as compared with the previous year was due partly to reduction of establishment, partly to faulty instruments, and partly to the failure of the boundary-mark operation to produce labourers. Under head (2) the outturn of five months' field work was 23,371 acres measured and 152,288 acres confirmed. The total expenditure incurred was Rs. 28,259-7-5 against Rs. 25,351-1-2 in 1890.

No settlement work was done during the year.

Wards Schools.

3. The number of Jesuit villages fell from 473 to 466, the average from 895,761 to 853,212, and the capital, from Rs. 88,452 to Rs. 86,093. During the year 13 more villages were made Ryotwari.

Character of legislation.

4. The following Acts of the Imperial Legislature were made applicable to the province during the year:—

Act XVII of 1899 (The Indian Census Act).

Act IX of 1899 (The Indian Railways Act).

Act X of 1899 (an Act to amend the Indian Penal Code and the Code of Criminal Procedure, 1882).

XIII of 1899 (The Vaccination Act).

Act XII of 1894 (The Agricultural Loans Act)—Sections 1 (1), 4 and 5.

Act XI of 1899 (The Indian Forestry Act).

Act VIII of 1887 (The Suits Valuation Act).

Act I of 1894 (an Act to amend the Cattle Trespass Act, 1871, and incorporate therein Act XVIII of 1885).

Act II of 1891 (an Act to amend the Indian Christian Marriage Act, 1872).

Act III of 1892 (an Act to amend the Indian Christian Marriage Act, 1872, and the Code of Criminal Procedure, 1882).

Act IV of 1891 (an Act to amend the Code of Criminal Procedure, 1882).

The following rules were issued by the Governor-General in Council:—

1. Rules under the Indian Telegraph Act, XIII of 1885, as in force in British India.

2. Rules under the Suits Valuation Act, VII of 1887.

Police.

5. The total strength of the police force employed in the province, including officers of all ranks, was 2,877 against 2,821 in the previous year. The increase was due to the addition of 14 officers and 44 men to the force. The total number of deaths during the year rose from 37 to 45 and the death-rate from 1·3 to 1·6. Excluding gazetted officers, the number of men provided with fire-arms was 1,330, with swords only or swords and batons 768, and with batons only 780.

Crime.

6. Excluding 105 cases rejected as false, the total number of cases of cognizable crime was 8,180 against 8,071 in the previous year. There was a general increase of heinous crime during the year. Cases of rioting rose from 78 to 85; dacoities from 27 to 41; cases of dakaiti from 28 to 34; robberies from 52 to 60; cases of house-breaking from 885 to 1,137; and thefts from 2,199 to 2,303. The value of property reported as stolen, however, fell from Rs. 2,12,453 to Rs. 2,10,256, while the recoveries increased from Rs. 47,146 to Rs. 90,149. Of the cases of cognizable crime 4,741 or 55 per cent. ended in conviction as compared with 4,618 or 57 per cent. in 1899. The number of non-cognizable offences rose from 6,806 to 7,069, the number of persons against whom process issued from 14,254 to 14,406, and the number of individuals convicted from 3,673 to 3,839.

Criminal justice.

7. Excluding cases pending at the close of the previous year, there were in all 14,906 criminal cases for disposal. The total number of persons under trial by the magistracy during the year, including those pending from the previous year, was 21,202 against 21,182 in 1899; of these 20,833, or 98·2 per cent., were disposed of, the percentage of convictions being about the same as last year, *viz.*, 51·9. Sessions cases were both more numerous and more complicated than in the previous year. There were in all 80 cases involving 153 persons, and of these 71 cases, in which 129 persons were concerned, were disposed of as against 32 cases and 50 persons adjudicated upon in 1899. Of the 129 persons, 88 were convicted, 36 were acquitted and 5 died, escaped or were transferred. The average duration of trials before the magistracy was 6·4 days against 5·3 in 1899, and of those before the Sessions Court 47·2 days against 30·4 days in the preceding year. The appeals for disposal by Deputy Commissioners rose from 374 to 388, and the number disposed of from 360 to 384. In the Sessions Court the corres-

smoking. Rumors were 256 and 238, and 231 and 219 respectively, and in the Judicial Commissioner's Court 53 and 108, and 82 and 105 respectively.

Prisons.

8. The total jail population of the year was 2,320 against 2,280 in the previous year, and the number of admissions 1,319 against 1,116. The number of previously convicted prisoners was 328 compared with 204 in 1890. Of 16 escapes who escaped, during the year 14 were recaptured. Offences against jail discipline rose from 46 in 1890 to 492 in the year under report. The work system continued to work satisfactorily, and was a stimulus to prisoners who come under it (aid to gain a remission of sentence. Some alterations of industries was caused by the introduction of a scheme for the conversion of the chief industries in particular jails; lithographing for Government departments was made the central industry of the Amraoti jail, and the weaving of rubber shoeing thus of the Akola jail, and although the change will eventually prove both economical and beneficial, yet while it was being carried out it caused a certain disarrangement of work. The total cash earnings of prisoners sentenced to labour fell from Rs. 17,376-3-0 to Rs. 12,890-7-0, their average earnings per head from Rs. 20-0-0 to Rs. 14-1-0, and the average earnings per head of those employed on manufacture from Rs. 65-10-0 to Rs. 57-15-0. The general health of the prisoners was very satisfactory, the total number admitted into hospital being 403 against 550 in 1890, and the total number of deaths 11 as compared with 13 in the previous year. The gross cost of maintaining and guarding prisoners rose from Rs. 60,096-5-0 to Rs. 61,086-5-0; but the average cost per head fell from Rs. 67-3-0 to Rs. 61-12-0.

Civil justice.

9. The total number of civil courts open was 40 against 42 in the previous year; the number of suits instituted was 22,590 as compared with 25,754 in 1890, and the number disposed of 22,728 against 26,231. The aggregate value of the claims involved in the suits disposed of fell from Rs. 27,72,876 to Rs. 25,16,013. The average duration of contested cases was 114·7 days and of uncontested cases 31·4 days, against 84 days and 41·8 days respectively in the previous year. The number of applications for execution of decrees fell from 31,191 to 27,755, and the amount realized in execution from Rs. 2,93,693 to Rs. 2,77,220, of which sum Rs. 13,812 was paid in voluntarily and the balance realized by process. There were 26 applications for declaration of insolvency, but only 8 were granted. Court and process fees realized an income of Rs. 3,41,283 against Rs. 3,65,472 in 1890. Including appeals pending from the previous year, there were 433 appeals for disposal by the chief appellate courts of districts, of which 325 were disposed of. The Civil and Sessions Judge disposed of 354 out of a total number of 622, and the Judicial Commissioner 575 out of 944.

Registration.

10. A slight change was made in the constitution of the registration department and three new offices were opened during the year. The total number of registrations rose from 28,289 to 28,808, and the aggregate value of property transferred from Rs. 77,58,856 to Rs. 80,50,785. Refusals to register also increased from 303 to 221. The total receipts for the year rose from Rs. 68,001 to Rs. 70,850, while the expenditure fell from Rs. 39,745 to Rs. 38,127, leaving a net surplus of Rs. 32,723 against Rs. 28,257 in the previous year. The accumulated surplus at the close of the year was Rs. 3,40,440, as compared with Rs. 3,08,026 at the close of 1890-91. With one exception, all sub-registrars' offices worked at a profit.

Municipalities.

11. The number of municipalities was the same as in the previous year, *viz.*, 8, and they continued to be administered under the Berar Municipal Law of 1886. Their total income rose during the year from Rs. 1,83,002 to Rs. 2,06,956-8-8, and the total expenditure from Rs. 1,73,770 to Rs. 2,29,328. The latter figure, however includes a sum of Rs. 28,650 under the head of "extraordinary and debt," so that the expenditure of the year was really only Rs. 2,10,678. As in the previous year large sums were spent on works of public health, convenience and instruction.

Local boards.

12. The Berar Rural Boards Law continued in force in four districts completely and in one partially, and the number of taluk and district boards remained the same as in the previous year. The total income, including the

grazing leases, of the divisional Courts for the year was Rs. 6,06,748, and the expenditure Rs. 5,57,898, leaving an unexpended balance of Rs. 3,30,068. As 11,000 the largest sums were spent on clearing and jungle works. The members of all the local boards were nominated officers in their circle.

Agriculture.

16. The total area of the province assessed to land revenue is 11,816 acres, which is not principally in the tracts of Sirsa, Hissar, Rohtak, Gurgaon, Mandi and the Jullundur District. There were a total area of 4,341 acres in the area available for cultivation, and a total area of 14,000 acres in that area the assessed, and a total area of 19,000 acres in last year, 1904. The area of land assessed and cultivated was 9,211 acres, which is the lowest area of the four years, and the area of the Delhi and Jullundur Divisions, and the estimated land revenue, 1,724 acres, or approximately 1,000 acres in Sirsa, and of 500 acres in Jullundur, and 1,000 acres in Delhi. The area under irrigation was 21,000,000 acres, 21,000,000 acres, which the area under rabi and non-irrigation crops was from 19,000,000 acres and 18,000,000 acres to 19,000,000 acres and 21,000,000 acres respectively. There was a slight increase in the percentage of holdings under cultivation and land, and a considerable decline of in land under forests. The area under irrigation was from 258,000 to 23,000 acres, and that under the cultivation from 28,000 to 29,000 acres.

Rainfall.

17. The average rainfall of the year was 0.729 inches, being 0.01 inches less than the quinquennial average, and 0.27 inches less than the fall of the previous year. The fall was considerable, being below the average in June and was favorable in September and the beginning of October, with the result that the kharif and rabi crops suffered.

Prices of the Grain and Salt.

18. With the exception of the price of rice, which was the same as in the previous year, the average prices of food-grains were higher than in 1900-01. The average prices of salt were stationary, except in the districts of Ambala and Delhi, where Sambhar and Kohat salt were consumed at a higher figure.

Veterinary.

19. The veterinary department was without a professional head during the greater of the year, but the results shown are comparatively satisfactory. The total cattle stock stood 7,798 crores, 142 having up till then been the greatest number recorded in a year. The total number of reported deaths from cattle decreased from 17,000 in 1899-01 to 16,987, but the figures are said to be unreliable and partially from the century. The disease was most severe in Wan and Ahirs, in some cattle fairs alone there were 12,316 deaths.

Agriculture stock.

20. With the exception of a falling-off in the numbers of cows and buffaloes, the agricultural stock at the previous shows an increase under all heads, but the figures, being based upon information furnished by patwaris, are not trustworthy of check.

Taccavi.

21. The total amount advanced under the Land Improvement Act rose from Rs. 18,423 to Rs. 30,000. Sections 4 and 5 of the Agriculturists' Loans Act, XII of 1884, were during the year applied to the province, and rules were framed under section 3.

Forests.

22. The operation of all officers from the Resident downwards was largely devoted to forest administration during the year, owing to the proposal that had to be made for the introduction of the new Forest Law. This proposal took place in June last, and therefore the year under report may be said to be the last under the old system. Other improvements were also proved on. There was a net increase of 153 square miles in the area of forest lands in the province. The boundaries of all the old demarcated State-forests were deepened with a closed line, 40 km. broad, and the Malakat reserves were further marked with stone pillars. The new Chhabbi reserve and the new extension of the Ambalaura reserve were demarcated, and four new reserves in Wan were marked by 40 km. closed lines. Four hundred and fifty boundary and field marks were repaired, and Rs. 870 was expended in repairing 11,020 field marks in grazing lands. Considerable progress was made in the preparation of working plans for 4 principal reserves, and it is hoped that passage of the scheme for the important forests of Bairagarh and Dagshai will shortly be completed. Revenue of forest rules fell from 1899 to 1903. Protection from

the season was satisfactory. Out of an area of 727,935 acres attempted, 120,130 acres or 16·5 per cent were successfully protected. The area attempted was 16,847 acres in excess of the area attempted last year, which the forest officers were 15,790 acres in advance of that for 1899. At the same time the expenditure was 1·2 per cent below that of the previous year, namely Rs. 7,2·0 to Rs. 6,130. The gross income rose from Rs. 4,37,199 to Rs. 5,11,180 (the large increase was due to the exceptional rise in the price of teak), and the net income from Rs. 2,59,893 to Rs. 3,97,340, leaving a surplus of Rs. 2,13,160 against Rs. 2,16,152 in the previous year.

Trade.

20. The volume of trade was 10 per cent above and the value 2 per cent below that of the previous year. The improvement in volume was confined to exports, which formed 67 per cent of the total trade, showing an increase of 27 per cent over last year's Report. Imports fell 2·4 per cent, and trade value showed a decrease of 0·1 per cent, chiefly owing to the decrease in the imports of the more highly priced materials. Except for an increase under coal and coke, dyes and tan, jute spins and stuffs and iron, the imports in all the principal articles of trade fell both in quantity and value. The fall under manufactured articles was confined to Indian manufactures, and was due to the abnormal importation of this class of goods last year; that under coals and jute was caused by a fall in the imports of coal from the Central Provinces and that under sugar by the scarcity in Burma and the Revenue of India from the North-West Provinces and Oudh to more remunerative markets. Exports increased in all articles except raw cotton, jute and metals. The increase under foodgrains was most conspicuous in wheat, gram and pulse, the first of which was for the greater part sent to Europe, and the two last to the Central Provinces, Rajputana and Central India.

Public works.

21. The disbursements from all sources on public works during the year under review amounted in the aggregate to Rs. 16,91,507. For imperial civil works the grant was Rs. 22,000, and Rs. 41,054 were expended, including Rs. 6,047 under head of suspense. The grant and expenditure under the provincial services of Berar amounted to Rs. 13,18,100 and Rs. 11,67,5[illegible]; the unexpended balance was Rs. 12,770, but the short outlay amounted only to Rs. 8,746, the balance coming under suspense. Military works were carried out from provincial funds in connection with accommodation for the Hyderabad Contingent troops located at Bolarum, Ellichpur, Raichur, Mominabad, Aurangabad, Jalna and Hingoli; the expenditure thereon during the year amounted to Rs. 34,614. Satisfactory progress at an outlay of Rs. 1,80,981 was made in connection with administration, revenue, judicial, educational, jail, police, educational, medical and miscellaneous buildings in Berar. Nearly six lakhs of rupees were expended on constructing, improving and maintaining roads, and Rs. 44,088 on miscellaneous public improvements. The grant and expenditure under incorporated local funds amounted to Rupees 1,33,[illegible] and Rupees 1,07,201, and under excluded Rupees 2,03,187 and Rs. 2,41,[illegible].

Railways.

22. The following statistics relate to the Berar State Railways. The working expenses of the Khamgaon line were Rs. 24,055 against gross receipts of Rs. 46,675, yielding a net profit of Rs. 22,620, equivalent to 6·66 per cent. on the capital outlay of Rs. 4,39,870. The Amraoti line gross receipts were Rs. 1,12,009 and the working expenses amounted to Rs. 59,517, showing a net profit of Rs. 52,492, equivalent to 11·68 per cent on the capital outlay of Rs. 4,49,[illegible].

Revenue and expenditure.

23. The gross revenue of the province during the year 1901-02 amounted to Rs. 1,21,55,[illegible]77 and the total disbursements to Rs. 1,20,30,[illegible]42. Omitting the receipts and disbursements of the incorporated and excluded local funds, the provincial surplus was Rs. 11,84,297 compared with a surplus of Rs. 13,03,296 for the year 1900-01. The amounts paid to His Highness the Nizam during the year 1901-02 was Rs. 13,00,074, being a portion of the surplus of the year 1899-01, and the accrued surplus in favour of His Highness the Nizam on the 31st March 1902 was Rs. 40,32,601. Of the gross income, Rs. 1,04,70,[illegible]01 were derived from provincial revenues, Rs. 7,15,[illegible]13 from incorporated and Rs. 13,67,[illegible]13 from excluded local funds. Rs. 99,[illegible],029 of the provincial revenues, Rs. 11,21,713 of the excluded local funds, and Rs. 7,[illegible],[illegible] of the incorporated local funds revenue were utilized, thus leaving a surplus of Rs. 9,125 to the credit of the incorporated local funds. The

provincial account shows a saving of Rs. 34,379. The second balance is large of the Residual at the close of 1891-92 inclusive of Rs. 3,00,000 allowed for any extraordinary expenditure, in accordance with paragraph 4 of the Government of India Financial Department Resolution No. 3057, dated 8th November 1887, was Rs. 1,12,100. As compared with the previous year, the receipts show an increase under nearly every head of revenue. The only important exceptions are land revenue, opium and police. Under land revenue and police the decreases are due to some permanent falling-off in the revenue derived from these sources, being due to purely exceptional causes. This, however, cannot be said of the falling-off in the opium receipts. As regards the expenditure, there has been a considerable increase. Of the net increase in the civil expenditure, two-thirds is of a permanent character and is to be found under land revenue, forests, and law and justice. But in the case of the military expenditure, where the net increase is to be found, the civil and military expenditures is mostly due to special and temporary causes, but here, too, there has been a permanent increase of about half a lakh of rupees under regimental pay and allowances.

Vital statistics.

24. The total number of deaths recorded during the year was 113,558 against 90,010 in 1890. The increase in mortality was due to a generally unhealthy year, and to the prevalence of cholera and of bowel complaints of an unusually severe type. There also current off a much larger number than last year. In proportion to population according to the census of 1881, the death-rate rose from 35·4 to 40·8 per thousand, or, according to the recent census figures, from 32·1 to 36·8. The total number of births registered in the province was 124,795 as compared with 114,450 in the previous year, being an increase of 10,305, and the rate to population was 42·3 per thousand according to the census of 1881, and 38·02 calculated on the recent census. Of the births registered 62,802 were males and 58,976 females, the proportion of the sexes born being 106·6 males to every 100 females. In the districts, the highest birth-rate was recorded in Akola and the lowest in Wun.

Medical relief.

25. There was no change during the year either in the number of the civil hospitals or in that of the charitable dispensaries, or in the medical staff employed. The total number of persons treated at civil hospitals was 44,978 or 2,207 more than in the previous year. Of this number 2,077 were indoor and 42,901 out-door patients. Malarial fevers were less prevalent than in 1890, but dysentery and diarrhœa and cholera were more so. The number of operations both major and minor increased during the year, the advance being steady at all hospitals except Buldana. The gross receipts of the civil hospitals rose from Rs. 50,903-6-10 to Rs. 52,06,917, and the expenditure from Rs. 50,903-6-10 to Rs. 52,48,3-9-7. The number of persons treated at charitable dispensaries was 236,374, or 3,198 more than in 1890, and was made up of 1,400 in-door and 236,974 out-door patients. There was an increase in the number of major operations performed at these dispensaries, but a considerable falling-off in the number of minor operations. The gross receipts rose from Rs. 57,204-7-3, to Rs 57,824-12-5, and the expenditure from Rs. 54,208-1-4 to Rs. 56,826-14-6, leaving, with the balance for last year, a closing balance of Rs. 83,154-7-1.

Municipalities.

26. The total income of municipalities during the year was Rs. 2,98,920, of which 79·6 per cent. was expended on sanitary works, the expenditure for conservancy alone being 22·3 per cent. During the year, the surface drainage of Akola, Khamgaon and Shegaon was extended, and considerable sums were spent to improve the water-supply at Akola, Amravati town and camp, and Khamgaon. In districts outside municipalities, the total expenditure on works of sanitary improvement was Rs. 1,77,018 against Rs. 1,19,031 in the previous year. The largest expenditures was incurred on the Buldana and the Akola water-supply schemes, and on the extension of the drainage area of the Kalpatni tank.

Vaccination.

27. Two improvements were introduced during the year, viz., the transfer of vaccination in dispensary towns from medical officers to the special establishment, and the exclusive use of animal lymph. There was a substantial increase both in the number of operations performed under the head of primary vacci-

nation and the percentage of success thereunder, which, rose from 54·9 to 62·2. Under re-vaccination the number of operations performed rose from 16,313 to 20,453, but the percentage of success fell from 20·7 to 20·4. The average number of operations performed by each vaccinator rose from 2,471 to 3,013, and beat the record of any previous year's individual work. The total expenditure incurred fell from Rs. 16,933-14-0 to Rs. 12,959-14-3, and the average cost of each operation from 8 annas to 2 annas and 7 pies.

25. An important change was made during the year in the education administration of the province, the management of the majority of primary schools in other than municipal towns having been made over to the District Boards. Clerks, inspectors and sanitary subsidy, and the comparatively high prices of foodgrains seriously affected educational operations in some of the districts, but on the whole satisfactory progress was made during the year under report. There was an increase of 35 in the total number of schools for boys, and of 8 in the number of schools for girls, while the total number of scholars rose by 1,141. The average of the province was one school to every 14 square miles, as against 14·3 in 1899-01, and the percentage of male pupils to male population of a school-going age was 21·9 as compared with 21·6 in the previous year. The results of the matriculation were better than last year, and the results for the Amravati High School particularly creditable, as 14 out of the 15 boys sent up were successful. There was an increase of 16 in the number of missionary schools and an increase of 196 in the number of scholars. Satisfactory progress was also made in aided and indigenous schools. The Training College for school-masters continued to do good work, and the American Mission Industrial School is said to be in a very satisfactory condition. Female education continues to make but slow progress. There was an increase of 2 in the number of schools, but only 30 in that of scholars. The number of passes, however, increased from 595 to 605. There were two schools for Europeans and Eurasians at the close of the year under report, and both are satisfactorily reported upon. For Muhammadan education, the number of schools were increased by 2, and there was a substantial increase both in the number of students and also in the number examined. The number of passes was 19 in excess of last year's figures. Satisfactory progress was made in the education of aborigines and in that of low castes, and the figures under physical education are higher than those of the previous year. Popular contributions decreased from Rs. 6,971 to Rs. 6,075. The falling off is assigned to the high prices of food-grains during the year. The receipts rose from Rs. 56,651 to Rs. 57,658, and the expenditure, which then fell from Rs. 4,46,374 to Rs. 4,34,885, a decrease of Rs. 9,485.

SECTION VII.

Changes in the Administration.

2. Sir Dennis Fitzpatrick, K.C.S.I., I.C.S., held the office of Resident at Hyderabad from the 1st April to the 12th November 1891, on the forenoon of which date he proceeded on privilege leave for three months. During his absence Mr. T. Chichele Plowden, I.C.S., was appointed to officiate as Resident at Hyderabad. While on leave, Sir Dennis Fitzpatrick was appointed to be Lieutenant-Governor of the Punjab and its Dependencies, and Mr. Plowden was confirmed in the post of Resident at Hyderabad with effect from the 5th March 1892, and continued to hold the office for the remainder of the year. The office of First Assistant Resident and Secretary for Berar was, with the exception of the occasions on which he was granted short periods of privilege leave, held by Mr. J. A. Crawford, I.C.S., throughout the year. On these occasions, viz., from the 8th to the 24th September 1891 and from the 25th to the 30th March 1892, the charge of the office of First Assistant Resident and Secretary for Berar was held by Mr. O. V. Bosanquet, I.C.S., in addition to his own duties. Mr. G. B. Irving, I.C.S., having been appointed First Assistant Resident and Secretary for Berar, vice Mr. Crawford, appointed to be Under-Secretary to the Government of India in the Foreign Department, assumed charge of his duties on the forenoon of the 30th March 1892, and continued in office up to the close of the year. With the exception of three months and ten days, on which he was on privilege leave, viz., from the 4th April to the 5th July 1891, Mr. O. V. Bosanquet, I.C.S., held the office of Second Assistant Resident and Assistant Secretary for Berar throughout the year. During Mr. Bosanquet's absence on leave Lieutenant C. B. Prichard, I.S.C., was appointed to officiate for him. In the Berar Commission the appointment of Commissioner of the Hyderabad Assigned Districts

was, with the exception of a month, which he was on privilege leave, viz., from the 10th August to the 9th September 1891, held by Mr. T. Gilchrist Plowden, I.C.S., up to the date of his transfer to Hyderabad. He was succeeded, on the occasion of his absence on privilege leave as well as on his transfer, by Colonel K. J. L. Mackenzie, I.S.C., Judicial Commissioner of the Hyderabad Assigned Districts, who was subsequently confirmed in the appointment of Commissioner and held charge of it up to the close of the year. Mr. B. Ohland, I.C.S., Civil and Sessions Judge, officiated for Colonel Mackenzie as Judicial Commissioner on the latter occasion, and continued in charge of the office up to the close of the year.

CHAPTER II.

ADMINISTRATION OF THE LAND.

SECTION I.

Survey and Settlement.

Forest survey.

4. The provincial boundary between Berar and the Central Provinces touching on the Nimar District was finally demarcated by the land authorities with permanent pillars, and was stopped by the Forest Survey Branch during the year. The amount expended on account of Berar was Rs. 1,816, which was chiefly on account of mapping and printing of standard sheets. The standard sheets of the Melghat Survey on the scale of 1" to the mile have been published, and 10 of the 4" sheets were reproduced on the 2" scale. This completes the Melghat series of maps.

Revenue survey.

5. Mr. F. W. Francis, who was appointed Director of Land Records and Agriculture, Hyderabad Assigned Districts, in place of Mr. R. D. Hare, who resigned that office, assumed charge of his duties on the 13th August 1891. At the time of his receiving charge, the establishment consisted only of one survey party under the Assistant Director, of a mirdandar and 16 measurers and chasers working in the inam villages of the Wun and Basim districts. The monsoon of 1891 having been rather late, the Assistant Director (Captain Garrett) took advantage of it to keep the field work going in order to finish the survey of the Khalsa villages which was then in hand, he himself being out on boundary mark inspection duty in the month of July. This delayed the commencement of the recess work, which consequently did not get fully in hand until August 1891, when the survey officer (Mr. Erskine) joined the department from the Survey of India and worked with the Assistant Director at Yeotmal for the remainder of the monsoon. With the help of three taluka chasers, the work was pushed on, only such of the arrears remaining over at the end of the rains being left as would be cut through at the approaching recess. Towards the end of the monsoon, the department was reorganized, a separate revision survey party being formed under the Survey Officer (Mr. Erskine), consisting of 11 professional measurers and chasers, five taluk chasers and 8 mamsurins, or a total of 24 in all. In consequence of effort having to be given to the orders of Government that local agency was to be utilized to the fullest extent, the strength of this party was merely nominal for the first three or four months of the season. The Survey Officer proceeded to the Mallapur taluka and commenced the necessary revision operations, while the Assistant Director's party, which was reduced to 10 measurers and chasers, as a temporary measure, resumed work in the inam villages of the Wun and Basim districts. The Director (Mr. Francis) himself performed a good deal of inspection work during the cold weather. The work which was dealt with during the year under report falls under two heads, *viz.*:—

(1) Resettlement of the inam villages in the districts of Wun and Basim, and (2) revision survey settlement in the Mallapur taluk of the Buldana district.

The following statement gives the number of villages in which establishments were at work from the 1st of April to the commencement of the monsoon, and again from the end of the monsoon to the 31st March 1892:—

Total ...	...	120	...
Total for both parties ...	34	189	...

= 223 villages in all.

In Wun and Basim the work of measurement and classification was completed in 103 villages. In Malkapur 10 villages were entirely re-measured in order to test the accuracy of the original work; the result showed that it was thoroughly reliable, and might without doubt be confirmed. In the remaining villages the system of partial re-measurement adopted in the Bombay Presidency was adhered to and only numbers that showed changes were dealt with, by far the larger portion of each village being confirmed.

The quantity of work done during the field season by each party as compared with the previous year is given below:—

Nature of work.	1890-91.		1891-92.	
	No. of fields.	Acres.	No. of fields.	Acres.

Classing	...	...	7,602	122,258
Boundary mark inspection	...	...	3,006	111,034

The total outturn by the Assistant Director's party for the year comes to 73,944 acres measured and 66,647 acres classed; of the area measured a very small portion, viz., 1,294 acres, was measured with theodolite, whilst 4,294 acres were calculated by scale from the map. The remaining 67,500 acres were measured with the cross staff and chain. The circumstances which tended to reduce the outturn of the Assistant Director's establishment were (1) the reduction in its strength in November 1891 from 16 measurers and classers to 10, of whom one was deputed to work in the Wun district as taluk classer, and one was dismissed, and his place remained vacant for one month; (2) the unsatisfactory nature of the instruments supplied by the Local Fund Overseer at Yeotmal, especially the cross staffs, which were badly made, and stood no rough usage; (3) the failure of the boundary mark contractor to produce labourers at the commencement of the season which necessitated local labor being obtained after considerable trouble.

The classing for the year under report shows an increase of 5,470 acres over the previous year. The figures would have been higher but for the sickness which has so interfered with the work.

The Survey Officer's party was only formed in November, and had only five months in the field. It consisted of one chainer and surveyors, field chainer and menials. The outturn of the work of each is as shown below :—

	Measured.			Checked.			Increase over last year.
	No. of fields.	Acres.	Average.	No. of fields.	Acres.	Average.	
Fields with area not more than 5 acres	1,008	15,265	15	574	109,081	190	...

Total	1,299	25,571	19·7	853	158,299	186	...

The following table shows the testing done :—

Assistant Director.

Measurements.		Boundary marks inspected.		Classification.		Remarks.
Nos.	Acres.	Nos.	Acres.	Nos.	Acres.	
17	1,818-18	From 25 to 50 per cent. of boundary marks were inspected.		83	1,040	By the Assistant Director and mamlatdar together.
24	681-1			312	4,600	By the Assistant Director, Land Records and Agriculture.
202	5,202 23			165	4,283	By the mamlatdar.
243	7,702-2			560	11,126	

Out of the 27,153 acres measured before the monsoon, the mamlatdar tested 5,203 acres or 19·5 per cent, and of the 38,014 acres classed in the same period, he tested 4,283 acres or 11 per cent. Of the 41,087 acres measured during the current field season, the Assistant Director and mamlatdar tested between them 2,490 acres or 5·9 per cent., and 6,843 acres or 25·2 per cent. of the 27,153 acres classed. The valuation of the soil being the more important duty received more attention, the total test showing a percentage of 11·3 on the number of fields measured, and 17·1 on those classed. Out of 25,571 acres measured and 158,299 confirmed, the Survey Officer tested 3,118 and 12,397 acres or 12·3 and 8 per cent, respectively.

The expenditure incurred on account of the erection of boundary marks is given for each district :—

				Rs.	a.	p.
Wun ...	...	...	...	3,083	2	6
Basim ...	...	...	...	2,480	10	6
Total ...				5,563	13	0

Of this total, the sum of Rs. 3,796-1-0 is recoverable, being the cost of erecting boundary marks in khalsa villages and of external marks in inam villages. The irrecoverable sum of Rs. 1,767-12-0 is that of the cost of internal marks in inam villages. The inspection of boundary marks by the Survey Officer's party was confined to examining the existing boundary marks and marking the places for the erection of those missing. The whole of the boundary marks in each village thus came under inspection, and the result showed that this duty of inspection must have been somewhat neglected of late years. The erection of the new marks was not undertaken departmentally, but has been carried out

Settlement of the year.

under the orders of the Deputy Commissioner, Buldana District. The Survey Officer's bill amounted to 744 items of 12,306 acres. The total work done and the total expenditure in the year under report compared with the previous year are as follows :—

6. No settlement work has been done during the year. The discussion on the system to be adopted in assessing inam villages until the revision of the whole district in which they are situated falls in was continued, and final orders were passed after the close of the year under report. The settlement of all inam villages which have already been measured and classed and the leases of which have expired will therefore form part of the work of the ensuing year. The revision settlement report on the Malkapur-Khamgaon and Jalgaon ta'uks is expected to be submitted in the forthcoming year, and as soon as the rates are sanctioned, they can be introduced in the Malkapur taluk, where the current lease is at present expiring.

SECTION II.

Waste Lands.

7. The following statement shows the number of leased villages together with their area and rental at the close of the year, compared with the figures of the previous year :—

	Number		Average		Rental	
	1890-91.	1891-92.	1890-91.	1891-92.	1890-91.	1891-92.

Total	439	420	275,261	289,724	31,772	32,562

*Including one village, Pimpri, in the Wun tahsil. It was "Khandesh" but is now a Berar and Hill tract.

Of these villages 319 in Wun and 56 in Dudna are held under the Waste Land Rules of 1865. During the year 13 inam villages were made Khalsa, seven on account of expiry of lease and six on account of non-payment of the Government dues.

SECTIONS III and IV.

Wards and Government Estates.

8. There are no wards or Government estates in the province.

CHAPTER III.

PROTECTION

SECTION I.

Course of Legislation.

9. The following Acts of the Governor-General in Council were, subject to certain modifications, extended to the Hyderabad Assigned Districts during the year 1891-92:—

Act XVII of 1890 (The Indian Census Act).

Act IX of 1890 (The Indian Railways Act).

Act X of 1891 (an Act to amend the Indian Penal Code and the Code of Criminal Procedure, 1882).

Act XIII of 1890 (The Vaccination Act).

Act XII of 1884 (The Agriculturists' Loans Act)—Sections 1 (1), 4 and 5.

Act XI of 1891 (The Indian Factories Act).

Act VII of 1887 (The Suits Valuation Act).

Act I of 1891 (an Act to amend the Cattle Trespass Act, 1871, and incorporate therein Act XVIII of 1883).

Act II of 1891 (an Act to amend the Indian Christian Marriage Act, 1872).

Act III of 1892 (an Act to amend the Indian Christian Marriage Act, 1872, and the Code of Criminal Procedure, 1882).

Act IV of 1891 (an Act to amend the Code of Criminal Procedure, 1882).

The following rules were issued by the Governor-General in Council :—

1. Rules under the Indian Telegraph Act, XIII of 1885, as in force in British India.

2. Rules under the Suits Valuation Act, VII of 1887.

SECTION II.

Strength.

10. The total sanctioned strength of the force at the close of the year was 558 officers (including gazetted officers of all ranks) and 2,323 men, or a total of 2,877, showing an increase of 14 officers and 44 men. The increase was due to the addition of eight officers to the detective police in the Amraoti and Akola districts, six officers and 30 men to the frontier police in the Basim district, and eight additional men employed in consequence of the reduction of the canal owners in the Amraoti and Buldana districts. According to the census figures of 1891, the proportion of police to area was 1 to every 6·1 square miles, and to population 1 to every 1,007 persons.

Composition and health of the force.

11. The total number of deaths recorded during the year rose from 37 to 48, and the death-rate from 1·3 to 1·6. Omitting 97 vacancies at the close of the

year the details of the force according to race or caste and religion were as follow :—

	Officers.	Men.
Christians	17	8
Mohammedans	201	903
Brahmans	108	427
Rajputs	45	209
Sikhs	8	9
Hindus of all other castes	109	683

13. The total number of men who left the force from all causes was 378 against 357 in the previous year; of these 72 retired on pension or gratuity, 107 resigned, 45 were dismissed, 16 discharged, 3 deserted and 18 died. As regards service, there were, exclusive of 389 recruits, 1,832 men with service ranging from one to ten years, and 1,004 men with service of ten years and upwards. Resignations and enlistments.

14. The re-armament of the force with the converted breech-loading smooth-bore snider, which has been decided upon, is in course of being effected. The 300 weapons referred to in paragraph 14 of the previous year's administration report were issued during the year, and 700 more of these arms were indicated for after the close of the year under report. Excluding garrisoned offices the number of men provided with fire-arms was 1,336, with swords only or swords and lathies 768, and with lathies only 700. Equipment.

15. The total number of cases of cognizable crime reported during the year was 8,075, of which 195 were rejected as false, leaving a total of 8,880 cases investigated, including petty nuisance cases, compared with 8,071 cases in the previous year. State of crime.

The following statement compares the offences of the year under report with those of the previous year :—

1891	18,724	1,994	10·5	978	5·2	14,652	78·3	12,906	68·7

The number of offences reported increased from 18,088 to 18,724, an increase of 636 offences or 3·5 per cent., which is attributed to annual variations alone. The number of cases dismissed under section 203 of the Criminal Procedure Code fell off by 11·5 or 1·2 per cent., while those struck off as false rose from 800 to 978, being an increase of ·8 per cent. The number of cases returned as true increased by 573 or ·5 per cent.

Classification of offences.

23. The subjoined table compares the various classes of offences returned as true during the past two years :—

Miscellaneous.

26. The average duration of the cases disposed of by Magistrates of all denominations for the year under report was 6·3 against 5·8 in the previous year. Average duration.

27. The number of cases disposed of by Deputy Commissioners in exercise of their enhanced powers rose from 51 in 1890 to 64 in the year under report. The total number of persons concerned in these was 124, of whom 49 were convicted and the rest were acquitted or discharged. Special jurisdiction of Deputy Commissioners.

28. The number of summary trials rose from 198 to 372, and the number of persons tried from 232 to 446. Summary trials.

29. There were two cases of trials of European British subjects, in one of which the accused, a Sub-Assistant Conservator of Forests, was committed to the Bombay High Court on a charge of embezzlement of Government money and sentenced to two years' rigorous imprisonment. The other case was compounded. Trials of European British subjects.

Sessions Cases.

33. During the year 80 sessions cases involving 153 persons came up for disposal against 87 cases and 59 persons in 1890. The cases were not only more numerous, but also more complicated. One dakaiti case involving 24 persons occupied 12 days in its trial. Seventy-one cases involving 129 persons were disposed of. Out of these, 64 cases were disposed of by the Sessions Judge and 7 cases were tried by the Judicial Commissioner owing to there being no Sessions Judge at the time fixed for the November session.

The following statement shows how the 129 persons were dealt with :—

Year.	Persons disposed of.	Persons acquitted.		Convicted.		Died, escaped or transferred.	
		Number.	Percentage.	Number.	Percentage.	Number.	Percentage.
1890 ...	80	31	42	28	56	1	1
1891 ...	129	36	27·9	88	66·2	5	3·9

Nine cases involving 24 persons were left pending at the close of the year. They were cases for the January and February sessions, not cases left over from previous sessions. All trials were held with the aid of assessors. In 47 cases the Judge agreed with the assessors. No European British subject was tried by the Court of Sessions. The average duration was 47·2 against 39·4. The duration was affected by two cases from the Wun district and one from the Akyab district, which were sent up incomplete and had to be adjourned for further enquiry. The Sessions Judge had 57 confirmation cases involving 116 persons against 22 cases involving 22 persons in 1890.

Appeals.

34. The following table shows the appellate work in the courts of the Judicial Commissioner, the Sessions Judge and of Deputy Commissioners :—

1891 ...	184	268	116	115	...	11	1	42

Except for fluctuations between appeals rejected at first hearing and sentences confirmed, the provincial results of the two years were much the same.

SECTION IV.

Jails.

Jail population.

35. The year opened with a total jail population of 864 compared with 1,010 in the previous year. The figure is the lowest on record for the province. The total number of admissions rose from 2,034 in 1890 to 2,805 in the year under report, and the direct admissions from 1,170 to 1,349. The daily average strength of all prisoners was 930·7 compared with 893 in the previous year, being an increase of 10·0 per cent. This increase in the jail population was most marked in the latter half of the year, which is the reason why the rise in admissions has not resulted in as large a proportionate increase in the daily average strength.

No. of convicts and their disposal.

36. Omitting under-trial and civil prisoners, the following figures show the number of convicts in the jails and the manner of their disposal:—

Remained at the end of 1890	...	882
Received from other jails ...	...	352
Imprisoned during the year	...	1,349
		2,583

These were disposed of as follows:—

Remaining at the end of the year	...	1,054
		2,583

Classification of convicts.

37. The daily average strength of the convict population rose from 866·19 to 922·61. Of those admitted during the year, 1,238 were males and 111 females; 220 were Mahammadans, 1,124 Hindus and Sikhs and 4 Buddhists and Jains. There were 10 convicts under 16 years of age, 1,158 between the ages of 16 and 40; 170 between the ages of 40 and 60; and 11 above the age of 60. Of the female convicts 63 were married, 7 unmarried, 38 were widows, and 3 prostitutes.

Previous occupation of convicts.

38. The following figures show the occupations followed by the male convicts previous to their admission into jail:—

	1890.	1891.
Persons employed under Government or municipal or other local offices	48	73
Professional persons ...	7	2
Persons in service or performing personal offices	105	101

Prosecutions.

Nature and length of sentence.

39. The following are details regarding the nature and length of sentence of the convicts for the past two years:—

	1890.	1891.
Not exceeding one year ...	1,003	995
Above one year and not exceeding five years	137	205
Above five years and not exceeding ten years	16	109
Exceeding ten years	...	11
Sentenced to transportation ...	8	36
Sentenced to death	6	4
	1,170	1,349

Of convicts admitted during the year, 93 were sentenced to simple imprisonment, 975 to rigorous imprisonment, 235 to rigorous imprisonment with solitary confinement, and 39 to rigorous imprisonment with whipping.

Previous convictions.

40. The number of convicts admitted into jail who had been previously convicted was 228 compared with 204 in the previous year. Of these 148 had been convicted once before, 33 twice, and 45 more than twice. Of 10 juvenile convicts admitted during the year, 4 had been previously convicted.

Escapes and recaptures.

41. During the year 16 convicts escaped, of whom 14 were recaptured.

Offences and punishments.

42. The number of offences and breaches of jail rules committed by convicts rose from 466 to 492. Of these 18 were dealt with by the magistracy against 6 in the previous year. Corporal punishments fell from 20 to 18.

Education of convicts.

43. The daily average number of convicts under instruction rose from 74·74 to 84·01. Of those under instruction 45 were released during the year, of whom 40 on admission could not read and write at all, 2 only able to do so a little, while 3 only were able to read and write well. When discharged, there were of the 45, 12 unable to read and write at all, 10 who could do so a little, while 23 were able to do so well.

Convict officers.

44. Out of a total of 111 convicts employed as prison officers, 108 were males and 5 females, compared with 105 and 6 respectively in the previous year. Sixty, all of whom were males, were reduced or otherwise punished, against 56 males and 1 female in the previous year.

Mark system.

45. The working of the mark system was as usual satisfactory. Not a single convict who came under it failed to gain remission of sentence, while the longest remission obtained was 496 days.

Occupation of convicts.

46. The figures given below show the average number of convicts kept to labour on working days and details as to their employment, &c., as compared with those for the previous year:—

	1890.	1891.
Average number under sentence of labour on working days	750·72	762·44
On unremunerative labour	2·81	2·17

Manufactures.

47. Some disturbance of industries was caused by a scheme for the concentration of the chief industries into particular jails. Hitherto lithographing for Government departments and weaving police clothing was carried out at both

the large jails; but now the former has been made the special industry of the Amraoti Jail, and the latter that of the Akola Jail. The change is likely to be beneficial and eventually to result in some economy; but while it was being carried out a certain disturbance of work was unavoidable. Of the District Jails, Yeotmal has been the most successful this year. The figures showing the results of jail manufactures for the past three years are as follows:—

	1889.	1890.	1891.

Average earnings per head sentenced to labour ...	8 15 0	20 9 0	14 1 0
Average earnings per head employed on manufactures ...	30 10 0	65 10 0	37 15 0

48. The state of the jails as regards the health of the prisoners could scarcely be more satisfactory. The figures for the past three years are compared below:— Health.

	1889.	1890.	1891.
Number admitted into hospital ...	676	550	403
Daily average number sick ...	15·2	16·6	12·3

1890 ...	43,511	39,358	3,161	812	23,39

Execution of decrees.

59. The total number of applications for execution of decrees was 27,783 against 31,131 in the previous year. Of this number, 22,969 or 82·7 per cent. were disposed of in the following manner:—

In 3,623 cases satisfaction was obtained in full.
" 2,468 do do in part.
" 14,259 cases the applications were wholly infructuous.
2,625 applications were transferred.
4,816 do were pending at the close of the year.

The realizations of the past two years are contrasted below:—

	1890. Rs.	a.	p.	1891. Rs.	a.	p.

Total ...	2,93,603	8	0	2,77,239	6	6

Moveable property was attached in 1,325 cases, but sale was actually resorted to in 710 cases only. Of the 1,563 cases in which immoveable property was attached sale was only effected in 859.

There were 68 civil debtors in prison in 1891 including 5 remaining from 1890; of these 66 were released during the year and 2 remained in gaol at its close.

Insolvency.

60. There were 26 applications under chapter XX of the Civil Procedure Code for declaration of insolvency, against 23 in the previous year. Eight applications were granted.

Process.

61. The total income on account of court and process fees amounted to Rupees 3,41,584-14-0 in 1891 against Rs. 3,65,412-6-0 in 1890.

Appellate work.

62. The statement below shows the work of the appellate courts during the year:—

Class of Appellate Tribunals.		Balance of 1890.	Instituted in 1891.	Received otherwise.	Total for disposal.	Total disposal of omitting transfers.	Total pending.
Chief Appellate Court of Districts.	Appeals from decrees.	60	317	51	428	312	97

The average duration of appeals from decrees in the chief appellate courts of districts varied from 56 to 236·2 days, while in the case of the Civil and Sessions Judge's Court it ranged for the three districts of Akola, Amraoti and Ellichpur, from 128·6 to 144·6 days, and in the case of the Judicial Commissioner's Court from 204·2 to 373·5 days. The average duration of miscellaneous appeals in the courts first named ranged from 57 to 58·8 days, and in the Civil and Sessions Judge's Court from 80·8 to 122·2 days, while the average duration in the Judicial Commissioner's Court was 136·6 days.

SECTION VI.

Registration.

Number of offices.

63. A slight change was made in the number and constitution of offices during the year under report. Four special salaried Sub-Registrars relieved four Tahsildars and replaced rural Sub-Registrars, and three new offices were opened. Only two Tahsildars, one at Pandurkowra in Wun and one at Chikalda in Ellichpur (where the business done does not pay enough to support a special Sub-Registrar), are now called upon to do registration work.

Registration work.

64. The total number of registrations rose from 28,280 in 1890-91 to 28,808 in 1891-92. The figures for the past four years are contrasted in the following statement :—

Year.	Compulsory.	Optional.		Wills, &c.	Total registrations.
		Immovable.	Movable.		
1888-89	19,679	6,411	1,988	73	28,151

1891-92	22,125	4,762	1,540	137	28,808

The aggregate value of property transferred increased from Rs. 77,84,338 in 1890-91 to Rs. 80,59,785 in 1891-92, or by 3·8 per cent. The general results of the past two years are compared below :—

	1890-91.		1891-92.	
	No.	Value.	No.	Value.
		Rs.		Rs.
Documents affecting immovable property ...	26,931	76,99,513	26,891	77,89,033
Documents affecting movable property	1,559	3,84,825	1,917	2,70,752

Refusals to register rose from 203 to 221 or ·7 per cent. on documents presented for registration.

Financial results.

65. The total receipts for the year rose from Rs. 68,001 to Rs. 70,350, while the expenditure fell from Rs. 39,745 to Rs. 38,127, leaving a net surplus of Rs. 32,223, against Rs. 28,257 in the previous year. The total accumulated surplus at the close of the year was Rs. 3,40,449 against Rs. 3,08,026 at the close of 1890-91. As during the year 1890-91 only one Sub-Registrar's office failed to cover its expenditure.

SECTION VII.

Municipalities.

Number of municipalities and their committees.

96. The number of municipalities was the same as in the previous year, viz., eight, and they continued to be administered under the Berar Municipal Law of 1886. The following figures show the constitution of the municipal committees:—

Ex-officio members		*Nil.*

Income and expenditure.

97. The total income of the year rose from Rs. 1,83,002 to Rs. 2,09,056-8-8, and the total expenditure from Rs. 1,73,770 to Rs. 2,39,528. This latter amount (Rs. 2,39,528) includes a sum of Rs. 28,650 under the head of "Extraordinary and Debt," so that the total expenditure during the year was really only Rs. 2,10,878. The general financial results of the year are compared with those of 1890-91 in the following statement:—

SECTION VIII.

Local Boards.

Constitution. 68. The Berar Rural Boards Law continued in force throughout the districts of Amraoti, Akola, Buldana, Basim, and in parts of Ellichpur. It has not been applied yet to the Wun district, or to the Melghat taluk of the Ellichpur district. The number of Taluk Boards and of District Boards was the same as in the preceding year, namely, 17 and 5 respectively, and the area subject to their authority was 121,288 square miles with a reported population of 2,071,455 souls. The sanctioned strength of each Taluk Board is 18 members, of whom it was intended that 6 should be nominated and the rest elected. The proportion of elected members was maintained in all the Taluk Boards except Basim, where it was only one-half owing to a want of members suitable for election. There were thus 306 members for the Taluk Boards, and of these 105 were nominated and 201 elected, 24 being officials and 282 non-officials and all being natives. At the 228 meetings which were held, the average attendance of officials, was 0·83 and of non-officials 8·27. Of the 128 members composing the District Boards, 32 were nominated and 96 elected, 16 were officials and 112 non-officials, and 123 were natives and 5 Europeans or Eurasians. Forty-seven meetings were held and the average attendance was 1·72 officials and 7·94 non-officials.

Elections. 69. There were 270 candidates for 69 vacancies in the Taluk Boards, or an average of 4 candidates for each vacancy. The number of persons entitled to vote was 21,783, but of this number only 4,080 or 18·5 per cent. actually voted.

Income and expenditure. 70. The subjoined table shows the total income at the disposal of the District Boards during the year :—

| Name of District Board. | Balance on 1st April 1891. | Income during 1890-91. | | |

The *Road Fund* includes fees realized from dak bungalows, which during the year under report amounted to Rs. 1,779-15-10.

The *Education Fund* consists of a portion of the sum contributed from the Provincial Revenues to primary schools, the entire educational cess levied in the area subject to the authority of the District Boards, and certain miscellaneous items.

The *Accumulated surplus of the Taxes and Local Cess* no longer forms an item of receipt, but the amount realized under this head represents recoveries of taxes made to municipalities, &c., on account of water-supply projects.

The total expenditure during the year amounted to Rs. 3,87,638-6-9 as shown below:—

CHAPTER IV.

PRODUCTION AND DISTRIBUTION.

SECTION I.

Agriculture.

Area of the province.

73. The subjoined table shows the distribution of the area of the Hyderabad Assigned Districts, exclusive of the Melghat, during the year under report and in the previous year :—

	1890-91.	1891-92.	Difference.
1. Number of villages	6,871	6,880	+ 9
2. Total area in acres	10,284,370	10,296,220	+ 11,850
3. Area not included in any survey number, such as village sites, tanks, rivers, &c.	201,190	200,626	— 564
4. Area demarcated as State forests	835,928	870,287	+ 34,359
5. Do. khalsa bans	16,622	16,769	+ 147
6. Do. rumnas	35,945	34,054	— 1,891
7. Do. other district reserved forests ...	187,446	187,358	— 88
8. Fields assigned for free grazing	723,789	704,958	— 18,831
9. Do. village purposes	55,935	56,190	+ 255
10. Unculturable lands not included in any of the foregoing.	695,583	698,761	+ 3,178
11. Balance assessed and available for cultivation ...	8,032,856	8,028,052	— 4,804
12. Occupied	7,621,546	7,635,595	+ 14,049
13. Not occupied	411,310	392,457	— 18,853

There was a net increase of 11 villages under the head of khalsa, of 20 villages under the head of demarcated State-forests, and of 2 villages under the head of jagir, or a total increase of 33. Deducting from this figure, the decrease of 17 integral waste villages, and of 13 villages leased under the waste land rules, the number remaining is 3, which is the number of villages transferred from the Melghat to the Jalgaon taluk. Of the total area occupied, 6,967,484 acres are situated in khalsa villages, being a net increase of 11,747 acres compared with the figures for 1890-91.

Department of Land Records and Agriculture.

74. The work of the department fell under two heads, *viz.*, (1) the re-settlement of the inam villages in Wun and Basim, and (2) the revision survey settlement in the Mulkapur taluk of the Buldana district. In both directions satisfactory progress was reported.

Cultivated area.

75. The total area assessed and available for occupation fell from 8,032,856 to 8,028,052 acres, showing a net decrease of 4,804 acres. The area occupied was 7,635,595 acres and that not occupied 392,457 acres. The former shows a net increase of 14,049 acres and the latter a net diminution of 18,853 acres. The area of unculturable land was increased by 3,178 acres owing to the transfer of 11,543 acres of unculturable land from the Melghat to Jalgaon, of which only 7,224 acres were retransferred to demarcated State-forests in Wun, and 940 acres to unoccupied culturable area in Basim. The total area under kharif fell from 5,116,522 to 4,956,245 acres, while that under rabi rose from 1,561,017 to 1,684,706 acres. That under miscellaneous rose from 19,742 to 24,057 acres.

Crops cultivated.

76. In the year under report the proportion of land cultivated with cotton was 33·7, with jowari 32·3, with wheat 19·4, with linseed 5·4, and with gram 3·2.

Production and distribution.

The acreage under each of the principal kinds of crops for the past two years is contrasted below:—

Irrigation.

77. The total area irrigated rose from 38,846 to 43,316 acres, and the area under rice cultivation from 18,875 to 22,069 acres.

SECTION II.

Weather and Crops.

Rainfall.

78. The average rainfall for the year was 39·29 inches. It was 8·61 inches less than the quinquennial average and 0·97 inches less than the rainfall of the previous year.

Effect of the rainfall.

79. The rain fell rather unseasonably; it was short of the average in June and considerably in excess of it in September and the beginning of October, with the result that both the kharif and rabi crops suffered to a greater or less extent.

Prices of produce and labour.

80. With the exception of rice, which was the same as in the previous year, the average prices of food-grains were higher. The export of wheat and jowari in Rajputana and to the south of Europe to supply famine deficiencies accounts for the rise in price of those grains. The rise was greatest in Amraoti and Wun. The labor wage rates were stationary in Amraoti, Akola, Ellichpur, and Wun; in Buldana and Basim the hire of bullocks rose by two annas, and in the last named district bullock carts commanded a higher figure, but donkeys were to be had at a considerably cheaper rate than in the previous year.

Agricultural stock.

81. The subjoined table shows the agricultural stock of the past two years, but as already explained in last year's report the figures are not susceptible of check, being based upon information furnished by patwaris:—

	1890-91.	1891-92.
Cows and bullocks	1,830,282	1,715,713
Buffaloes	332,782	324,161
Sheep and goats	404,033	498,837
Carts	122,540	132,639
Ploughs	125,322	133,602

Veterinary.

82. The Veterinary Department in Berar was without a professional head during the year, the work being supervised, as in the previous year, by a young Assistant Commissioner, who did all that personal interest and attention could effect. The total number of deaths from cattle disease was 16,587 against 17,060

in 1899-01. These figures are, however, believed to be unreliable. As in the previous year the disease was most severe in Wun and Ahola, in which two districts alone there were 12,316 deaths.

83. The greatest number of mares previously covered in any one year was 143; during the year under report the number was 228, an increase of 85. Horse breeding.

84. There were no horse and cattle shows in the province during the year, but as some of the usual fairs prices to the value of Rs. 754 were distributed by the Deputy Commissioner of Wun. Horse and cattle shows.

85. The total amount advanced under the Land Improvement Act rose from Rs. 15,420 to Rs. 30,000. Sections 4 and 5 of Act XII of 1884 (the Agriculturists' Loans Act) were applied to the Hyderabad Assigned Districts by Foreign Department Notification No. 3013 I of the 23rd September 1891, and rules have been framed under section 4 (2). Land Improvement Act.

SECTION III.

Arboriculture.

86. The following is a comparison of the year's work with that of the two previous years:—

	1899-02.	1900-01.	1901-02.

SECTION IV.

Forests.

87. In consequence of the reorganization of the Forest Department in India, the following changes occurred in the staff of the Berar Forest Department. The upper controlling staff, consisting of one Conservator and two Deputy and Assistant Conservators, was amalgamated with that of the Punjab, Central Provinces and Coorg for purposes of promotion. In the lower controlling staff the designation of "Extra Assistant Conservator" was substituted for that of "Sub-Assistant Conservator," and both the pay and position of these officers were improved. Seven of those officers were allotted to Berar, and they were included in one list with the lower controlling staff of the Central Provinces and Coorg for purposes of promotion. The total strength of the upper and lower controlling staff at the close of the year was therefore 1 Conservator, 1 Deputy Conservator, one Assistant Conservator, and 7 Extra Assistant Conservators.

Total area.

88. There was a net increase of 152 square miles in the area of forest lands in Berar. The distribution of this area is shown in the statement below :—

Classes of Forest.	Area in square miles.				Percentage of forest area to area of Province (17,730).
	Area on 1st April 1891 (1).	Added during the year.	Disclassified during the year (2).	Area on 31st March 1892.	
Demarcated State-forests	1,108	122	6	1,224	7·0
District reserved forests	3,013	50	43	3,020	5·1
Habitat unreserved forests	2,163	121	93	2,191	12·3
Total ...	6,284	279	142	6,435	24·4

Boundaries.

89. The boundaries of all the old demarcated State-forests were cleared of shoots and brushwood, and marked with a cleared line 40 feet broad. The Melghat reserves and those of Chirodi and Germustergaon were further marked with within-view stone pillars built round a teak post which projects about 2 feet from the top and carries the serial number of the mark. In other districts, the boundaries were marked by the warlis set up by the Revenue Survey. The new Chikalda reserve and the new extension of the Ambabarwa reserve were demarcated at a cost of Rs. 250 and Rs. 177 respectively, and 4 new reserves in the Wun district were marked by 40 feet lines at a total cost of Rs. 499. The demarcation of the new extension of the Kiwat reserve was commenced, but was not completed owing to a further extension of the forest having been proposed, and the new reserves of Dabhdi, Pishki, Rowar and Umbarda remain to be demarcated. In grazing lands 11,624 boundary mark (warlis) were repaired at a total cost of Rs. 979, but the work had to a great extent be left over for want of funds.

Prosecutions.

90. Excluding the cases pending from the previous year, the number of prosecutions for breaches of forest rules fell from 416 to 373, the number of cases disposed of from 399 to 377, and the number of persons involved from 708 to 666.

Fire conservancy.

91. The results of fire protection for the past two years are contrasted below :—

Berar Forest Law.

92. The new Berar Forest Law had not come into force during the year, and the old order of classification was therefore still adhered to.

Working plans.

93. The work of describing the compartments of the Bairagarh and Gugamal forests was continued during the year, and was nearly completed at its close. The Bairagarh forest was divided into three working circles, the first of which was divided into 28 compartments and the two last into 30 compartments each. Gugamal forms one working circle divided into 30 compartments. During the year under report improvement fellings were carried on in one of the compartments in each working circle of Bairagarh. The outline of working plans for the Pengangan reserve in Basim, for the Kiwat, for the Pathrot reserve in the Wun, and for the Bhongaon and Loni reserves and other habat bans in Akola were submitted to and approved by the Inspector-General of Forests. Working plans were also drawn up for working the timber on the grazing lands in the Yeotmal, Wun and Pandurkowra talaks of the Wun district, and for the grazing lands and habat bans of three talaks in the Buldana district. In

Basim a rough scheme for regulating the annual felling on grazing lands in the Basim taluk on the copper reserve was drawn up and set working, and data are being collected for similar schemes in the other two taluks. The plan that was drawn up for Mesko was held in abeyance because it was decided to join Chandur, Ambarnagar and the copper lands of Pardaran and Charmali with Modal to form one working circle. The scheme for the working of the Amraoti hills forests was adhered to, but owing to the necessity for eliminating some outlying grazing tracts from the working circle, the matter will require further consideration.

Grazing.

94. As a special case, owing to the prolonged dry season and on the urgent representation of Deputy Commissioners, grazing was permitted to a limited extent on the payment of double fees in most of the demarcated State-forests in the Wun division, and also in parts of the Chandur and Pengangh reserves in Basim. The revenue realised on the cattle grazed in the district reserved and unreserved forests fell from Rs. 1,61,560 to Rs. 1,57,657, but in the demarcated State-forests it rose from Rs. 3,957 to Rs. 12,978.

Natural regeneration.

95. Reproduction was satisfactory in the Melghat reserves, the Mahlari reserve, the Kinwat forest, the Tipeswar block of the Kelapur reserve, and the Anjankheir and Pathrot reserves, and it was marked in the ravines and valleys of several other reserves. In the Chirodi and Ghatbori reserves, and in the forests in Buldana and most of those in Basim, reproduction was scanty owing partly to poverty of soil and partly to grazing.

Cultural operations.

96. The area under cultural operations fell from 3,600 to 3,577 acres owing to the exclusion of 40 acres that proved an entire failure, and the addition of 317 acres sown principally with teak. The teak plantation in the Bairagarh reserve and the bamboo nursery in the Chirodi reserve were in a great measure successful, but the result of cultural operations undertaken in the other district forest reserves was not satisfactory.

Communications.

97. The Forest Department constructed 31½ miles of road during the year at a total cost of Rs. 9,358, and thus amongst other important results completed the circuit of the Bairagarh forest, and opened up the south-west portion of the Chouraikund working circle and the Bairam bamboo forests. It was also under contemplation to construct a road from Ghatang to Dolar to facilitate the extraction of timber from the north-east portion of Bairagarh, one from Kuiza to Banam to open up the bamboo forest in the south-east of Gugamal, and another from Gokriam to Chipi to open up the Gangipatti valley. During the year, the Public Works Department completed the Akote-Selu road, and it was opened throughout for traffic in December last, and has already caused an increased output of bamboos from the Gugamal forest.

Yield and working.

98. No timber was removed by Government agency. The following figures show the revenue realised from each class of forest produce for the past two years :—

	1890-91.	1891-92.
	Rs.	Rs.
Timber	1,60,732	1,56,191

SECTION V

Mines and Quarries.

100. There is nothing to record under this head.

SECTION VI.

Manufactures.

101. The manufactures of the province are, as stated in previous reports, chiefly confined to twist and yarn, coarse cotton cloth and petty unskilled handicrafts. Silk weaving is carried on at Khokapur in the Amraoti district, where fine pitambars are made; cotton carpets are manufactured at Akot and Ellichpur, and nut-crackers at Deulgaut in the Buldana district; silk bordered waist-cloths and women's robes, turbans, blankets and edgings of silk to native cloths are among the other articles manufactured in the province, but full details about them are not available; coarse cloths, called khadis, of different textures and colors are woven at Ellichpur and Wun. Besides the cotton weaving mill at Badnera and two oil mills, one at Amraoti and the other at Shegaon, the cotton presses and ginning factories are by far the most important industries in the province. The mill at Badnera produced 999,685lbs. of twist and yarn and 918,734lbs. of cloth against 980,095lbs and 882,010lbs respectively in 1890-91. The number of persons employed by this mill during the year was 825 as compared with 820 last year. Besides meeting local wants, the produce was exported to Bombay, the Central Provinces and the Nizam's dominions. The oil mill at Amraoti turned out 124,189 gallons of oil and 1,184 tons of oil cake during the year under report. Information about the other mill at Shegaon is not available. The number of steam cotton presses was the same as in the preceding year, but the number of ginning factories rose from 47 to 48. The outturn of the presses was 389,055 bales against 339,310

in 1888-89. The number of cotton presses working during the year with the outturn of work for the last two years is shown below:—

SECTION VII.

Trade.

Registration.

102. The returns of railway-borne traffic, which were compiled last year in the Office of the Director of Land Records and Agriculture, Bombay, were furnished this year by the Examiner of Guaranteed Railway Accounts, Bombay, to whom the duty of registering and compiling them was transferred under the orders of the Government of India.

Estimated outturn of crops.

103. The subjoined statement shows the area sown under the different kinds of crops, the estimated outturn per acre, and the total estimated outturn of the year as compared with the results of the previous year. The figures are approximate:—

Total trade.

104. The total traffic of the year is contrasted with that of the previous year and with the average of the five previous years in the following statement:—

(Figures in thousands of maunds and rupees.)

Description of trade.	Quantity in maunds.			Value in rupees.		
	Average of five years ending 1890-91.	1890-91.	1891-92.	Average of five years ending 1890-91.	1890-91.	1891-92.

Total ...	7,170	7,497	8,797	57,049	62,175	60,681

The volume of trade was 16 per cent. and 19 per cent. respectively above that of the previous year and the average; on the other hand, the value though much above the average was 2 per cent. below what was recorded in the previous

year. The total trade is made up of 39 per cent. of imports and 61 per cent. of exports. The improvement in volume was confined to exports, which showed a rise of 27 and 23 per cent. respectively over those of the previous year and the average; the imports fell by 2·4 per cent. below those of the previous year, but rose by 11 per cent. over the average. The value of imports showed a decrease of 8·3 per cent. compared with that of last year and an increase of 2·7 per cent. over the average. The fall in the value of imports was mainly due to a decrease in the imports of the more highly priced materials, such as manufactured cotton, goods and metals. The value of exports rose by 0 per cent. above the average and was slightly greater than that of last year.

Imports.

105. The principal items in the import traffic are shown in the following table and compared with those of the previous years and the average of the last five years:—

The demand for coke and coal was larger than in the previous year, and was due to the increased consumption in the presses and in the Budnera mill. The decrease under manufactured cotton was confined to Indian manufactures, Indian piece-goods being only 61 per cent. of those in 1890-91. The decrease was, however, nominal, and was due to the abnormal imports of these articles last year. To the imports under grain and pulse, rice contributes nearly three-fourths, and the slight decrease exhibited was due to a fall in the imports of rice from the Central Provinces, which supply almost the whole quantity of rice required by Berar. Four-fifths of the oil imported into Berar is kerosine, and the substantial increase under this head was owing to its introduction into the remoter parts of the province. The increase under spices was confined to chillies, the imports of which rose from 737 to 12,486 maunds, and this abnormal increase, although unaccounted for, was probably due to the cultivation of chillies as a kharif crop being neglected owing to the late advent of the monsoons and the consequent employment of all hands in sowing the more important crops of cotton and jowari. The imports of sugar, though considerably below those of the previous year, were 6 per cent. higher than those of 1889-90 and 23 per cent. above the five years' average. For the last few years the imports of this commodity have gradually increased, and the year's imports would doubtless have reached last year's figures but for the scarcity in Bombay and the diversion of trade from the North-Western Provinces and Oudh to more remunerative markets. The fact that the fall in value was disproportionate to the volume was due to the decrease in highly valued imports, such as piece-goods and metals.

The decrease in the exports of raw cotton was partly due to smaller outturn and partly to a falling-off in the demand for foreign export, the English market having been flooded with American cotton. The increase under manufactured cotton though slight was general, but the fall in value was confined to Indian piece-goods. The increase under food grains was most conspicuous in wheat, jowari and bajri. Though exported in increased quantities to provinces affected with scarcity, wheat was mostly exported to Bombay for shipment to Europe, where Russian and French wheat crops had partially failed. More than half the jowari and bajri exports were taken by the Central Provinces to replace local millet which was poor, and the wheat, which was being sent away. Rajputana and Central India also took a large quantity (180,826 maunds). The exports in oil seeds increased by 37 per cent. owing to larger outturn and to higher prices obtaining in the Bombay markets. Of the total increase of 302,330 maunds, linseed contributed 92 per cent. and sesame 6 per cent.

Miscellaneous.

118. A sum of Rs. 1,000 was provided for the preservation of ancient monuments, but the money was not required.

IV.—*Communications.*

Roads and bridges in progress or completed.

119. The metalled and bridged road from Nandura to Motala, 20½ miles long, was completed, with the exception of a bridge under construction, at a cost of Rs. 1,38,364 against an estimate of Rs. 1,52,330. The amount expended during the year was Rs. 1,100.

The collection of broken stone for metalling 14 miles of the Khamgaon-Anandpur road was completed in miles 1 to 4 and 7 and 8, and was in progress in miles 5, 6, and 9 to 14. The total expenditure up to date on this work was Rs. 18,054, out of an estimate of Rs. 33,191, the amount expended during the year having been Rs. 12,003.

The work of metalling with broken stone the Akola-Akot road was in progress. Rs. 13,100 was expended out of an estimate of Rs. 76,476, the expenditure during the year being Rs. 9,643.

The Gugamal forest metalled and bridged road, 37½ miles in length, was completed at an outlay of Rs. 4,60,425 against an estimate of Rs. 4,81,486. The expenditure during the year was Rs. 40,909.

The bridge across the Jawarkhund nulla on the Ellichpur-Peli road was in progress, and the expenditure in this connection at the close of the year was Rs. 14,358 out of an estimate of Rs. 21,878.

The road from Burour to the Wardah river, 14½ miles long, estimated to cost Rs. 1,20,183, was in progress. The expenditure up to date was Rs. 60,627, and of that sum Rs. 28,816 was expended during the year.

The metalling of miles 6, 7 and 8 of the Amraoti-Morsi road was completed and metal was collected in miles 9 to 18. Of the estimated cost Rs. 87,031, Rs. 23,942 were expended up to the close of the year.

Improving causeways on the Yeotmal-Wun and Osmri-Pandorkowra roads, All but one of these causeways were completed, the expenditure being Rs. 8,507 out of an estimate of Rs. 9,378.

With the exception of spreading and consolidating the metal on the last three miles, the work of metalling the Yeotmal-Dhamangaon road was completed. The expenditure was Rs. 47,868 out of an estimate of Rs. 53,546.

Miles 37 to 57 of the Akola-Hingoli road were metalled, and the work on the remaining length was in active progress. The expenditure at the close of 1891-92 was Rs. 47,847 against an estimate of Rs. 1,03,146 and Rs. 28,880 was expended during the year.

Other works under this head not provided for in the budget which were completed, or in progress, during the year, were the construction of an iron girder bridge of 30 feet span on the Akola-Hingoli road, the fixing of wooden railings to the embankment at mile 43, Malkapur-Mehkar road, the construction of an iron girder bridge in the 23rd mile of the Akola-Akot road, the re-roofing of the Traveller's Bungalow at Aurangabad, raising the causeways on the Sherson-Akot road, forming nurseries and planting trees on both sides of the Public Works Department roads, dismantling and rebuilding the arches of bridge No. 89 on the 7th mile of the Amraoti-Morsi road. On all these the expenditure at the

close of the year was Rs. 37,058 out of an estimate of Rs. 1,42,987. There were in addition certain minor works unnecessary which were estimated to cost Rs. 16,856, of which Rs. 14,191 was expended during the year.

Roads.

120. During the year 857 miles of Public Works Department roads, bridged and metalled, were kept in good repair at a cost of Rs. 8,82,795, or about Rs. 146·66 per mile. In addition to the above, four miles of road were constructed, thus making a total of 861 miles. All these roads are in charge of the Public Works Department. A few roadways in charge of the Local Fund Public Works Department, but as much all of these are unmetalled for weather cover, practically unbridged, they are not included in the above figures. The system of metalling with kankar since the most impassable roads, which was resorted to when it was noted that the uncoarse obtainable was incapable of supporting the excessive traffic, was continued. Up to the end of the year 277 miles were so treated with most gratifying results. Great benefit has accrued to the Great Indian Peninsula Railway through these roads. In 1874, when the road mileage was 202, the railway receipts from all stations in Berar were Rs. 57,09,954, for last year the corresponding figures were 861 and Rs. 70,93,955.

Omitting excluded local funds, items 8 and 19, the surplus of the year under review was Rs. 11,84,297 as compared with a surplus of Rs. 15,03,353 of the previous year.

The year under review is the thirteenth in which the system has been in force of assigning a certain percentage of the provincial revenues to the Resident for Civil, Public Works and Railway expenditure. The proportion for the first four years was 34 per cent., and thereafter up to 1886-87, 52 per cent. This was subsequently reduced to 50 per cent. for a period of five years commencing from the year 1887-88, but as this percentage was found insufficient, the Government of India on the representation of the Resident, increased the assignment of revenue from 50 to 51 per cent. with effect from 1889-90 to 1891-92—*vide* Department of Finance and Commerce Resolution No. 4347, dated 28th August 1889.

The balance of credit of the Resident under the new contract scheme on the 31st March 1892, was Rs. 12,12,305 as shown below :—

REVENUE AND RECEIPTS.

The variations under revenue and receipt heads are explained below :—

A.—Principal Heads of Revenue.

I.—*Land Revenue.*

Below the estimate ... ... Rs. 2,54,243
Do. actuals of 1890-91 ... ... „ 1,24,978

Minor heads.	1890-91.	1891-92.	Increase.	Decrease.

Ordinary revenue ...	65,07,182	63,81,647	...	1,25,535
Miscellaneous	17,553	18,110	557	...
Total ...	65,24,735	63,99,757	557	1,25,535

There has been no real falling-off in the revenue. The decrease as compared with the actuals of 1890-91 is to the extent of Rs. 67,172, due to an account adjustment in connection with the one per cent. rent-free, and to the extent of the balance, Rs. 57,806, to circumstances which have thrown the collection of this sum to the succeeding year.

II.—*Opium.*

Better than estimate ... ... Rs. 12,018
Do. actuals of 1890-91 ... ... „ 14,016

Minor heads.	1890-91.	1891-92.	Increase.	Decrease.

Miscellaneous	16	32	16	...
Total ...	2,01,987	1,87,982	16	14,017

The revenue under this head represents the duty levied by the Opium Agent at Malwa on opium imported to Berar; also the recovery in Berar of certain small sums on account of fines; the falling-off was due to the quantity of opium imported in 1891-92 being less than that imported in 1890-91.

IV.—*Stamps.*

Total ...	16,61,310	16,90,390	29,080	...

In the Akola and Wun districts the realizations during 1891-92 show a decrease of Rs. 36,770 and Rs. 35,004 respectively as compared with the actuals of 1890-91, but the realizations in other districts show a considerable increase.

VI.—*Provincial Rates.*

Below the estimate ... ... Rs. 20,402

Miscellaneous	867	612	...	255
Total ...	4,87,108	5,11,185	24,077	255

The increase as compared with the actuals of 1890-91 is chiefly under the head "Grazing and fodder grass," and is due to greater demand for grazing and better prices obtained from sales of rumnahs and of grass in rumnahs owing to the scarcity of other fodder and prolonged drought.

Do. local	601	225	...	376
Total ...	26,077	15,764	7,864	18,177

The realization in 1890-91 of arrears of contribution from the Great Indian Peninsula Railway Company, on account of Berar Railway Police employed on the Company's line in Berar, accounts for the deficiency in the receipts under this head. The deficiency is therefore only an apparent one, and does not denote any real falling-off in the income from this source.

Total ...	46,579	79,115	32,536	585

The main increase is due to the credit in 1891-92 of the unspent portion of the fee income from primary schools. These fees were formerly not credited in the Government accounts, but on the issue of recent orders that they should be so credited it became necessary to pay to the credit of Government the balance of these fees remaining unspent.

XXXIII.—*Army.*

Better than estimate	Rs.	1,03,001
Do. the actuals of 1890-91 ...	"	2,07,176

The principal increase is under the head "10. Ordnance Establishment and Stores," and is due to the re-armament of the infantry of the Hyderabad Contingent. The value of the arms returned into arsenal is credited here, the cost of the new arms being shown as expenditure on the other side of the account.

ADJUSTING HEADS.

CREDIT ADJUSTMENTS.

PROVINCIAL.

Contributions from Local to Provincial.

These represent contributions towards the cost of executing certain public works of provincial importance, in which, however, local funds are interested. The transactions are necessarily of a very fluctuating nature, being dependent upon the public works undertaken. There must of necessity be considerable variations between the accounts of different years.

LOCAL.

Contributions from Provincial to Local.

Better than estimate	Rs.	21,983
Do. the actuals of 1890-91 ...	"	21,983

The principal item under this head is the provincial contribution towards the cost of primary education. This does not vary to any appreciable extent from year to year. The variation in the accounts for 1891-92 is caused by an account adjustment in connection with the transmission of the road cess fund, and consists of the transfer of the opening balance of this fund from provincial to local.

DISBURSEMENTS.

The charges for 1891-92 aggregate Rs. 98,07,962 as against Rs. 91,86,182 for the previous year, resulting in a net increase of Rs. 6,21,780 as shown in the following statement:—

Under civil expenditure the principal increases and the heads under which they occur are as follows:—

Heads of account.	Rs.	Remarks.
3. Land Revenue ...	71,157	Due chiefly to creation of the Department of Land Records and Agriculture, and to arrear payments to village officials.
11. Forest ...	29,449	Due to increase in payment of commission to village officials in connection with the collection of larger revenue; also to increased expenditure incurred for construction of new works, temporary establishment, and under salaries.
19-A. Law and Justice—Courts of Law ...	40,810	Chiefly due to the payment of arrear salaries, creation of the appointment of Cantonment Magistrate, Jaitu and Aurangabad, and to the expenditure incurred in connection with the case against Wattakaber.
19-B. Law and Justice—Jails.	18,168	Chiefly in the cost of rations due to the increase in the number of jail population and to a rise in the prices of grain. There was a larger purchase of raw materials for manufacture.
26. Scientific and other Minor Departments ...	17,982	Caused by the census operation.
27. Territorial and political pensions ...	40,406	Payment of arrear pensions.

The expenditure under the head State Railways shows an increase of Rs. 8,844, and it is chiefly due to an increase in the working expenses caused by the improvement in the earnings of the railways.

ARMY—HYDERABAD CONTINGENT.

Total ..	33,16,057	37,84,240	4,58,690	90,494

1. *Army and Garrison Staff.*—The decrease under this head is chiefly due to the appointment of Assistant Adjutant-General, Hyderabad Contingent, having been held during 1891-92 by an officer of the rank of captain, while in 1890-91 it was held by a major. As the year 1891-92 is the off year for the monsoon chase, Bahamni, which is assembled only every alternate year, there has been a saving on this account also.

3. *Regimental Pay, Allowances, &c.*—The increase under this grant is due to the addition of one officer to each of the infantry and lancer regiments of the Hyderabad Contingent, to the introduction into the Hyderabad Contingent of the squadron and wing system, to the increase of kit allowance from Rs. 20 to 30 to infantry recruits, and to the grant of forge and other allowances. Mess allowances appeared for the first time under this head in the year 1891-92.

4. *Commissariat Establishment.*—The increase under this grant chiefly occurs under compensation for dearness of provisions, due to the rise in the prices of articles.

5. *Stud and Remount Establishment.*—During 1891-92 a smaller number of remounts and bullocks than in the year 1890-91 were purchased.

6. *Clothing Establishment.*—During 1891-92 the triennial supply of clothing to the infantry regiments of the Hyderabad Contingent, and biennial supply to the artillery, Hyderabad Contingent, were made.

9. *Medical Establishment.*—The decrease of Rs. 5,987 is principally under extra medical charges and cost of medicines and medical stores obtained on indent. The decrease under the latter is due to a smaller supply of medical stores than in previous year having been obtained during 1891-92 for hospitals, Hyderabad Contingent, under sanction of the Deputy Surgeon-General, Hyderabad Contingent.

Expenditure under Imperial Service Subsidies.

10. *Ordnance Establishment.*—The increase of Rs. 2,74,195 under Ordnance Establishment, &c., is attributable to the supply of new arms (Martini Henri) and ammunition to the remainder of the six infantry regiments.

13. *Sea Transport Charges.*—The increase of Rs. 718 is due to the grant of passage money to certain officers of the Hyderabad Contingent travelling by sea.

14. *Miscellaneous Services.*—The decrease under this grant occurs under Burma expedition and mess allowances. Rs. 7,004 was adjusted in 1890-91 on account of Burma expedition against Rs. 2,29 in 1891-92. In 1890-91 charges for mess allowances were adjusted under this grant, while in 1891-92 under 3. Regimental Pay and Allowances. Hence the decrease of Rs. 11,543.

16. *Rewards for Military Services.*—The increase is due to the payment of arrears of allowances to the members of the Order of Merit and Order of British India.

17. *Retired Officers.*—The decrease of Rs. 17,299 under this grant is due to the death of certain retired officers during 1891-92, without any corresponding additions being made to the pension list during the year.

18. *Military Pensions.*—The expenditure under this head is annually increasing, the pension establishment not having yet reached its maximum.

19. *Widows' Pensions.*—The increase under this head is attributable to the grant of sterling rates of pensions to the widows of warrant officers of the Hyderabad Contingent with effect from 1st April 1886.

CHAPTER VI.

VITAL STATISTICS AND MEDICAL RELIEF.

SECTION I.

Births and Deaths.

System of registration.

136. The system of registration remained the same as in the previous year. Some steps were, however, taken during the year with a view to improve registration and stimulate the inspection and testing of registers, owing to the detection of a large number of omissions.

Births.

137. The total number of births registered in the province, excluding the Melghat, during the year 1891 was 121,755 as compared with 111,450 in 1890, or 10,305 in excess of the figures for the preceding year, and 14,576 in excess of the mean of the previous 10 years. The proportion of births to population was 42·8 per thousand of population calculated on the census figures of 1881, against 42·5 in the previous year; but on the total population (2,897,491) according to the recent census the proportion was 42·02 per thousand. Of the total births recorded, 62,802 were males and 58,953 females, the proportion of the sexes born being 106·5 males to every 100 females. In districts, the birth-rate ranged from 34·8 and 39·1 per thousand in Wun and Basim to 47·3 and 47·6 in Buldana and Akola. In towns the mean birth-rate was 40·5 against 38·8 in 1890, while in rural circles it was the same as last year, *viz.*, 43·1.

Still-births.

138. The number of still-births registered was 5,213 as compared with 4,184 in 1890. Of these 3,000 were males and 2,213 females, or 135 males to every 100 females. The proportion of still to live births was 4·2 per cent.

Deaths.

139. The total number of deaths registered was 115,558 against 93,020 in the previous year, or an increase of 22,538. This increase in mortality was due to a generally unhealthy year, and to the prevalence of cholera and bowel complaints in more than average intensity. The proportion of death-rate to population was, according to the census figures of 1881, 40·6 per 1,000 as compared with 35·4 in the previous year. According to the recent census figures, the proportion was 39·8. Of the total number of deaths recorded, 60,434 were those of males and 55,124 those of females. The male deaths preponderated in all districts during the year, the proportion being 109·5 deaths amongst males to every 100 amongst females. In the districts the death-rate ranged from 47·6 in Akola to 30·0 in Wun. The mortality rate for towns was 40·0 and that for rural circles 40·6. Mortality was as usual highest in August, September and October, and lowest in January, February, March and April. The following statement shows the annual rate of mortality per 1,000 of population according to age for the last two years:—

Vital Statistics and Sanitary Matters.

The number of deaths of each class for the past two years is contrasted below:—

	1891.	1892.
Christians	20	27
Mohammadans	6,116	7,329
Hindus	82,904	105,933
Other classes	3,969	4,607

The statement below compares the number of deaths registered from different causes during the year under report with the figures for 1890 and with the mean of the preceding 10 years:—

Causes of death.	Mean for 10 years.		1890.		1891.

SECTION II.

Immigration and Emigration.

140. Like last year, the only two districts for which any figures are given as to the movements of population are Akola and Wun. The total number of persons who left these districts and settled in them is said to have been 1,367 and 3,722 respectively. These figures are however considered to be unreliable.

SECTION III.

Medical Relief.

Civil hospitals.

141. There are eight civil hospitals in the province, one at each head-quarter station, one at the sanitarium at Chikalda, and one at Kalamkher. These institutions are intended primarily to afford medical aid to Government servants requiring it, but the general public are not refused admission when accommodation is available.

Medical staff.

142. The medical staff employed remained the same as in the previous year.

Patients treated.

143. The total number of both in and out-door patients treated at civil hospitals was 44,378, or 2,297 more than in the previous year, and the daily average attendance was 272·55 against 272·60 in 1890. Of the total number treated, 24,003 were men, 6,088 women and 15,087 children, against 24,360, 5,451, and 12,072 respectively in the previous year. Of these 550 were Europeans, 1,482 Eurasians, 26,559 Hindus, 13,131 Mohammadans and 2,662 other classes. Taking the in-patients separately, there were 2,072 persons treated in 1891 against 1,926 in 1890. Of the total admissions, 1,844 were cured, 21 relieved, 108 discharged otherwise and 60 died. The average death-rate was 2·8 per cent. of those treated. The out-door attendance increased from 40,155 to 42,361, and of this number 32,011 attended personally and 9,390, or 22 per cent., were represented by friends. The average daily attendance was 211·44 against 210·47 in the previous year.

Other diseases treated.

144. Malarial fevers were less prevalent during the year under report than in 1890, but dysentery, diarrhœa, and cholera were more so. The following table shows some of the principal maladies for which treatment was sought and contrasts the figures with those of the previous year in order of greatest prevalence:—

	1891.	1890.
Malarial fevers	8,731	9,801
Worms	3,423	3,295
Diseases of the eye	3,361	2,313
Ulcers	3,334	3,169

Dyspepsia	1,625	1,507
Dysentery	1,218	1,022
Diarrhœa	1,200	870
Cholera	200	1

Operations.

145. There were 153 major and 1,822 minor operations as compared with 79 and 1,427 respectively in 1890. The advance in surgical operations was steady at all hospitals except Basim.

Income and expenditure.

146. The following table compares the income and expenditure for the past two years :—

Vital Statistics and Sanitary Welfare.

Number of charitable dispensaries.

Patients treated.

147. The number of charitable dispensaries was the same as last year, viz., 36.

148. The total number of patients treated was 238,379, or 5,193 more than in the previous year. Of this number 1,460 were in-door and 236,913 out-door patients, and the average daily attendance of the former was 39·18 and that of the latter 1392·53 against 61·09 and 1647·37 respectively in 1890. Of the in-patients 1,140 were cured, 70 relieved, 71 otherwise discharged, and 148 or 10·13 per cent. died. Of the out-patients 108,621 attended personally, and 38,222 were represented by friends, against 100,049 and 37,991 respectively in 1890. Of the total number of persons treated 108,949 were men, 37,574 women, and 91,850 children, and the daily average attendance was 746 men, 277 women and 608 children. According to classes, 228 were Europeans, 661 Eurasians, 144,291 Hindus, 86,141 Muhammadans, and 7,052 belonged to other classes.

Diseases treated.

149. There was a decrease as compared with last year in fevers, skin diseases and ear affections, and an increase under all other heads. Cholera prevailed in an epidemic form, the number treated having risen from 67 to 2,087. There was also a considerable increase in the number of cases of dysentery and diarrhœa. The following statement shows the principal diseases for which relief was sought during the past two years :—

Disease.	1891.	1890.
Malarial fevers	40,157	42,157
Diseases of the eye	29,812	30,024

Cholera	2,087	67

Operations.

150. There were 89 major and 7,538 minor operations performed during the year against 63 and 8,744 respectively in 1890.

Income and expenditure.

151. The figures below compare the financial results of the past two years. The difference of Rs. 585-10-7 between the closing cash balance of 1890 and the opening balance of 1891 is due to the correction of accounts of former years :—

SECTION IV.

Sanitation.

152. The total income of all municipalities during the year under report was Rs. 2,38,925, of which 48·6 per cent. were expended on sanitary works as compared with 45·4 per cent. in 1890. More or less attention was paid to conservancy in all municipalities, and the expenditure under this head alone amounted to 22·3 per cent. of income. Under drainage, the only appreciable expenditure was at Akola, Khamgaon and Shegaon in the extension of the surface drainage of these towns. Considerable sums were also expended to improve the water-supply at Akola, Amraoti town, Khamgaon and Amraoti Camp. The total district expenditure (excluding municipalities) on works of sanitary improvement was Rs. 1,57,618 against Rs. 1,19,621 in the previous year. The following table shows the sanitary works executed by the Public Works Department and in progress during the year:—

	Rs.	A.	P.

SECTION V.

Vaccination.

153. The strength of the establishment remained the same as in the previous year, but there was a good deal of sickness amongst the staff. Strength and conduct of staff.

154. During the year under report, vaccination work in dispensary towns was transferred from medical officers to the special vaccination establishment. Work done.

This change was necessitated owing to the introduction of lymph, the cultivation of humanized lymph, medical officers being practically unable to keep up a supply of animal lymph. It was also, on other grounds, desirable that the responsibility for the efficient protection of these towns should be centred in the Vaccination Department. The work done by all establishments is shown in the following table and compared with figures of the two previous years:—

	Primary vaccination.			Revaccination.			Total.		
	1890-91.	1890-91.	1891-92.	1890-91.	1890-91.	1891-92.	1890-91.	1890-91.	1891-92.

Of the total number of persons vaccinated by the special establishment, 79,791 were males and 47,745 females. The average number of operations performed by each vaccinator rose from 2,471 to 3,013, and beat the record of any previous year's individual work. In primary vaccination, the percentage of success was 95·2 and, in re-vaccination 29·4 against 93·3 and 30·8 respectively in 1890-91.

Cost.

155. The total expenditure incurred during the year was Rs. 16,653-14-2 as compared with Rs. 16,900-15-0 in the previous year, or a decrease of Rs. 247. The average cost of each successful operation fell from 3 annas to 2 annas and 7 pies.

Attitude of the people.

156. There is nothing to record regarding the attitude of the people towards vaccination.

CHAPTER VII.

INSTRUCTION.

SECTION A.

Education.

Number of schools and scholars.

137. The year under report witnessed an important change in the education administration of the province, the management of the majority of primary schools in other than municipal towns having been made over to the District Boards. The year was not, however, so favorable to educational operations as the previous one. Cholera, unseasonable and scanty rainfall, and the comparatively high prices of food-grains seriously affected the progress of education in some of the districts; but on the whole satisfactory progress was made during the year. The following table shows the number of schools and scholars at the close of the year as compared with the figures of the previous year:—

Description of school.				No. of schools.		No. of scholars.

* This includes 20 pupil-teachers who are being trained for scholarships in primary and Anglo-vernacular schools, and one girl attending the Khamgaon municipal school for girls.

Distribution of schools and scholars according to districts.

138. There was an increase in the number of schools for boys, and a corresponding decrease in the average number of square miles to every school in all the districts except Basim and Wun. The number of boys attending schools and also the percentage of male scholars to male population of a school going age increased in Amraoti, Buldana and Ellichpur, and decreased in Akola and Basim. The last named district suffered most on account of cholera, influenza and high prices, and attendance fell off in Akola and Wun owing to similar causes. Notwithstanding these variations, the relative positions of the districts in regard to the progress of education did not undergo any perceptible change. Akola still shows the largest number of schools, and maintains its first place as regards the average number of square miles to every school and the percentage of male scholars to male population of a school-going age. If, however, the Melghat be excluded from Ellichpur, that district, as usual, shows the smallest average number of square miles to each school and the highest percentage of male scholars to male population of a school-going age. The average of the province was one school to every 14 square miles, as against 14·3 in 1890-91.

and the percentage of male pupils to male population of a school-going age was 21·9 as compared with 21·5 in the previous year.

University education.

159. There were ten students holding Berar scholarships in the colleges of the Bombay Presidency, and of this number, one student passed the final B. A. examination and became a graduate. Of the students from Berar High Schools who did not hold scholarships in the year under report, two passed the F. E. examination, and one the first B. A., and three the final B. A. examination.

Matriculation.

160. Out of a total number of 26 students who presented themselves for examination from the Akola and Amraoti High Schools, 19 passed, the figures for the previous year being 27 and 13 respectively. The result for the Amraoti school was particularly creditable, as 14 out of the 15 boys sent up were successful.

Secondary schools.

Primary schools.

152. During the year under report, 17 new primary schools for boys under public management were opened and 7 closed, leaving an increase of 10. The number of pupils in Government or District Board schools increased in every district except Basim and Wun, and the number of boys in Municipal schools increased slightly in Ellichpur, but fell off in Akola and Amraoti. On the whole there was an increase of 148 pupils in the province in the schools for boys under public management. The average daily attendance increased in all classes of schools and in every district, except in the District Board schools in Basim and Ellichpur. The two statements below furnish information regarding the state and cost of education for the past two years:—

There was an increase of Rs. 465 in fee receipts, and of Rs. 9,174-4-8 in the total expenditure. The total cost of educating each pupil was increased by Rs. 0-7-2, but the cost to provincial revenues under this head fell off by Rs. 0-2-0

Aided schools.

163. The number of schools under private management aided by fixed monthly grants remained unchanged during the year under report. The number of scholars fell from 325 to 309, but the number who passed in the preliminary standards rose from 54 to 91. The aggregate monthly grant remained the same as last year, viz., Rs. 112.

Indigenous schools.

164. Satisfactory progress was made in regard to indigenous schools in all districts except Bassein and Wun. The number of schools rose from 620 to 630, the scholars increased from 9,0[illegible] to 9,[illegible], and the number of pupils examined from 7,711 to 8,019. The number of schools that earned grants and prizes rose from 508 to 593, and the total amount of grants earned from Rs. 15,070-14-11 to Rs. 17,429-5-4.

Training schools.

165. Including pupil-teachers in other schools, there were 85 students under training for schoolmasters, against 87 in the previous year. Of these 50 were examined in the first year's course, and 28 for certificates, and 23 and 10 respectively passed. As to the examination for entrance into the training college, 65 candidates were examined—51 on the Marathi and 14 on the Hindustani side; 33 of the former passed and 8 of the latter. Of 38 students who joined the college, 26 were admitted on the Marathi and 7 on the Hindustani side.

Training.

166. The results of the first grade examination of the Bombay School of Arts were more satisfactory than those for the previous year. Out of 84 pupils who presented themselves for examination, 15 succeeded in obtaining certificates against 77 and 7 respectively in 1890-91.

Industrial training.

167. The number of students in the American Mission Industrial School at Akola on the 31st March last was 24 against 25 at the close of the previous year. The school is said to be in a very satisfactory condition.

Female education.

168. Female education continues to make but slow progress. The following statement shows the present condition of female education in the province:—

* Inclusive the number of girls who passed the certain standards in boys' schools.

The amount of fees collected in Government, District Board and Municipal schools rose from Rs. 298-8-0 to Rs. 281-14-0, and the expenditure from Rs. 10,328-7-10 to Rs. 10,428-14-1. The annual cost of educating each pupil, however, fell from Rs. 7-3-7 to Rs. 7-0-0.

Education of Europeans and Eurasians.

169. At the close of the year under report there were two schools for Europeans and Eurasians in the province, viz., the Catholic school at Amareti and an American school at Akola. The Amraoti school had a roll of 22 boys and 31 girls on the 31st March 1892 against 18 boys and 27 girls at the end of the previous year. The average daily attendance was about 32. The highest standard taught to the boys was the fourth, and to the girls the seventh. The school at Akola was opened in May 1891, and on the 31st March last had on its rolls only seven boys and one girl. As a special case a Government grant was sanctioned to this school on the condition that the average daily attendance was not less than six.

Instruction.

170. The following statement shows the condition of Muhammadan education in the Government, District Board, and Municipal schools in the province during the past two years:— Muhammadan education.

	1891-92.	1892-93.
Number of schools	82	84
Number of scholars on 31st March ...	4,347	4,422
Number of pupils examined under the several standards ...	1,775	1,833
Number of pupils passed ...	1,152	1,162

The above figures do not include Muhammadan boys attending other than Hindustani or Anglo-Hindustani schools; but, if these are included and non-Muhammadans in Hindustani schools deducted, the total number of Muhammadan pupils in all classes of schools under public management would be 6,214 against 6,172 last year. The number of Muhammadan pupils in schools under private management rose from 997 to 1,061, thus making the grand total number of Muhammadan scholars in the province 7,275 against 7,169 in 1890-91.

171. The school at Chikalda continued to be the only school for the aboriginal races. On the 31st March 1892, the total number of pupils was 130 against 127 in the previous year. There was an increase both in the number examined and in the number passed, the number being 34 and 27 respectively against 24 and 14 in 1890-91. The highest standard in which boys passed during the year was the fourth. Fourteen boys passed in the first standard, 6 in the second, 5 in the third and 2 in the fourth, against 7, 2, 3, and 2 respectively in the preceding year. Education of aborigines.

172. Satisfactory progress is reported in the education of low castes. The total number of pupils during the year under report was 1,651 against 1,598 in 1890-91. The number examined in all standards fell from 439 to 413, while the number who passed rose from 251 to 265. Education of low castes.

173. On the 31st March last, there were 8 private schools with 144 scholars, against 9 schools and 134 scholars at the close of the preceding year. Private schools.

174. The total number of gymnasia in the province rose from 441 in 1890-91 to 449 during the year under report. The number visited by the circle gymnast also rose from 400 to 411. Physical education.

175. The following figures show the pupils in Government, District Board, and Municipal schools according to race or creed during the last two years:— Castes of pupils.

		1891-92.		1892-93.	
		Pupils.	Percentage.	Pupils.	Percentage.

Others ...	...	45	·1	42	·1
	Total ...	37,790		38,050	

176. Popular contributions increased in Baidam, Basim and Amraoti, but decreased in the other three districts. The falling-off is attributed to the high prices of food-grains during the year. The total amount contributed was Rs. 0,669-10-0 as compared with 0,671-2-6 in 1890-91. Popular contributions.

177. The following table shows the amount of fees realized during the past three years in all classes of Government schools and in District Board primary schools:— Fee receipts.

Total ...	54,378	7	6	56,411	1	6	57,388	15	9

Expenditure.

175. The total expenditure on education fell from Rs. 4,40,873-12-0 to Rs. 4,34,893-7-0, being a decrease of Rs. 5,980-4-3. There was an increase in the expenditure met from "Fees" and "Municipal funds," and a decrease in that debited to all other heads.

SECTION II.

Literature and the Press.

Text-book Committee.

170. At the beginning of the year, the Text-book Committee had one book on hand for review, and seven others were sent to them for opinion during the year. Of these eight books, two were reported on, and the balance remained on hand at the close of the year.

Book-depôts.

180. No change was made in the number of book-depôts, which remained the same as in the previous year, *viz.*, one central depôt and 29 branch depôts. The stock account of these institutions was as follows:—

Receipts.

	Copies.	Amount. Rs.	a.	p.

Balance on 31st March 1892. ...	187,756	27,046	13	2
Total ...	290,426	42,437	8	9

Literature.

181. The number of books registered under Act XXV of 1867 was the same as in the previous year, *viz.*, 13. Ten of these were issues of the Berar School Paper. The others were—(1) *Meaning of difficult words in the Berar Second Book and collection of compound letters*; (2) *Report of the Berar Educational Conference, 1890-91*; and (3) *Berar Educational Directory for 1890-91.*

Presses.

182. The number of printing presses in the province was the same as in the preceding year, *viz.*, 9; but one press was closed in the Akola district and another opened at Amraoti. One of the weekly newspapers hitherto published in the former district was also discontinued, and a new monthly magazine started in the latter.

Public libraries.

183. Six libraries or reading rooms were opened during the year, and consequently the number on the 31st March 1892 was 36 against 30 on the last day of the previous year. As in 1890-91, the Akola and Amraoti libraries were the most prosperous institutions.

SECTION III.

Arts and Sciences.

* The percentages required for 2 (a), 2 (b), 2 (c) are to be calculated from the figures given in column 7 (a), 7 (b), 7 (c) respectively of General Table IV.

† The annual cost is calculated on the direct expenditure only. The average cost of educating each pupil is obtained by dividing the direct expenditure by the average number on the rolls monthly during the year.

‡ The average cost of each pupil in Local Fund and Municipal Schools is to be obtained from the figures given in General Table VII.

§ Fraction of a rupee should be omitted except in the column showing the average annual cost of educating each pupil.

"Benar Vakhtawar-le-jak Sabha," Amraoti.	The object of the institution has been to encourage and foster the habit of delivering public lectures on popular and current literary and scientific subjects, and thereby to revive and invigorate upon the rather neglected or forgotten art of speech among the native societies.	Not stated.	Not stated.	1	1914	This sabha or society has been established in connection with the Amraoti City Library and is considered a part of the institution. The balance, if any, after collecting the expenses are carried to the library's account. But when the expenses exceed the income, they are paid from the library fund.

No information regarding this institution is given in the department's report for the year 1911-12. The foregoing particulars are taken from the return for 1912-13.
